To counter seas of cars, rising petrol prices, and snarling traffic—Reva Electric Vehicle is India's offering to the world in the shape of a zero emission, green mobility option. Dr Maini recounts the story of Reva—India's first commercial electric vehicle—from the inception, ideation, designing the car to taking it to the world. It is a story coloured with hope, determination, disappointment, success, and jubilation—it is the passion for making green commuting a viable possibility come alive in these pages from Reva's journey. It is the story of a team that believed in its products against all odds. A story of many firsts, this book is an immortal account of India soundly on the forefront of electric vehicle movement with this unique car.

UN RETOUR À LA NORMALE (ENFIN PRESQUE) L'Annuel de l'automobile célèbre sa 21e saison sur le marché. La majorité est atteinte. Après une année de COVID, la planète automobile traverse une année de pénurie de puces électroniques qui affecte le monde entier. Pour bien des constructeurs, le rythme est au ralenti depuis des mois et même des constructeurs qui avaient été jusqu'ici épargnés par la crise ont maintenant de la difficulté. Un cabinet-conseil américain évalue les pertes mondiales à plus de 130 milliards de dollars et cette disette de puces électroniques va se poursuivre pour le reste de 2021. Mais cela n'a pas ralenti les constructeurs automobiles qui continuent de mettre de l'avant les plans d'électrification. De nouveaux joueurs comme Lucid, Rivian, Bollinger et Karma s'ajoutent aux pages du livre cette année. LES TENDANCES ACTUELLES Pour suivre les courants les plus forts, L'Annuel de l'automobile offre des reportages exclusifs. Vous retrouverez cette année : L'électrique regarde dans le rétro Renault 5, Volkswagen Microbus, Hummer. Tous ces véhicules et d'autres multiplient les clins d'œil au passé pour mieux « vendre » la conversion à l'électrique. Vous avez même des compagnies qui font la conversion de véhicules classiques en modèle électrique. Le rouage intégral pour les nuls Rouage intégral, 4 roues motrices, prise constante, et maintenant les modèles 4 roues motrices électriques. Notre chroniqueur automobile Michel Crépault résume en termes simples tout ce qui concerne les modèles 4 roues motrices. La collection de voitures de José Gaudet Grand amateur de voitures, José Gaudet aime les voitures de toutes les époques pour peu qu'elles procurent un sentiment dynamique au volant. Il nous présente sa collection avec ses commentaires colorés pour chaque modèle. Sommes-nous dépassés par la technologie? L'électronique règne maintenant sans partage dans les véhicules modernes. Est-ce que la courbe d'apprentissage des automobilistes suit la vitesse de développement des constructeurs? Suivez Alain McKenna qui vous dira comment c'est possible (ou non) d'approivoiser cette technologie.

This book describes the challenges and solutions the energy sector faces by shifting towards a hydrogen based fuel economy. The most current and up-to-date efforts of countries and leaders in the automotive sector are reviewed as they strive to develop technology and find solutions to production, storage, and distribution challenges. Hydrogen fuel is a zero-emission fuel when burned with oxygen and is often used with electrochemical cells, or combustion in internal engines, to power vehicles and electric devices. This book offers unique solutions to integrating renewable sources of energy like wind or solar power into the production of hydrogen fuel, making it a cost effective, efficient and truly renewable alternative fuel.

The paper investigates the divergence between inflation and monetary expansion in Zimbabwe since late 2003. The substantial decline in velocity and increasing levels of real money balances during 2004 are at

odds with a record of inflation closely tracking the growth rates of monetary aggregates in the past. Possible explanations for the divergence include an unstable demand for money, a sudden shift in the underlying demand for real balances due to a sharp change in an explanatory variable, and a structural break or aberration in a normally stable money demand relation reflecting some unexplained factor such as repressed inflation (given administered prices) or measurement errors in the consumer price index. The results of the study point to the last possibility as the most likely explanation.
