This volume's contributors explore the links among sexuality, ethnography, race, and colonial rule through an examination of ethnopornography—the eroticized observation of the Other for

supposedly scientific or academic purposes. With topics that span the sixteenth century to the present in Latin America, the United States, Australia, the Middle East, and West Africa, the contributors show how ethnopornography is fundamental to the creation of race and colonialism as well as archival and ethnographic knowledge. Among other topics, they analyze eighteenth-century European travelogues, photography and the sexualization of African and African American women, representations of sodomy throughout the Ottoman empire, racialized representations in a Brazilian gay pornographic magazine, colonial desire in the 2007 pornographic film *Gaytanamo*, the relationship

between sexual desire and ethnographic fieldwork in Africa and Australia, and Franciscan friars' voyeuristic accounts of indigenous people's "sinful" activities. Outlining how in the ethnopornographic encounter the reader or viewer imagines direct contact with the Other from a distance, the contributors trace ethnopornography's role in creating racial categories and its grounding in the relationship between colonialism and the erotic gaze. In so doing, they theorize ethnography as a form of pornography that is both motivated by the desire to render knowable the Other and invested with institutional power. Contributors. Joseph A. In *You Never Call, You Never Write*, Joyce Antler provides an illuminating and often amusing history of one of the best-known figures in popular culture--the Jewish Mother. Whether drawn as self-sacrificing or manipulative, in countless films, novels, radio and television programs, stand-up comedy, and psychological and historical studies, she appears as a colossal figure, intensely involved in the lives of her children. Antler traces the odyssey of this compelling personality through decades of American culture. She

reminds us of a time when Jewish mothers were admired for their tenacity and nurturance, as in the early twentieth-century image of the "Yiddishe Mama," a sentimental figure popularized by entertainers such as George Jessel, Al Jolson, and Sophie Tucker, and especially by Gertrude Berg, whose amazingly successful "Molly Goldberg" ruled American radio and television for over 25 years. Antler explains the transformation of this Jewish Mother into a "brassy-voiced, smothering, and shrewish" scourge (in Irving Howe's words), detailing many variations on this negative theme, from Philip Roth's Portnoy's Complaint and Woody Allen's Oedipus Wrecks to television shows such as "The Nanny,"

"Seinfeld," and "Will and Grace."
But she also uncovers a new counter-narrative, leading feminist scholars and stand-up comediennes to see the Jewish Mother in positive terms. Continually revised and reinvented, the Jewish Mother becomes in Antler's expert hands a unique lens with which to examine vital concerns of American Jews and the culture at large. A joy to read, *You Never Call, You Never Write* will delight anyone who has ever known or been nurtured by a "Jewish Mother," and it will be a special source of insight for modern parents. As Antler suggests, in many ways "we are all Jewish Mothers" today.

"An informed, provocative, astute consideration of salvific alternatives to contemporary policing and imprisonment." — Starred Review, Kirkus "With deep insight and moral clarity, Purnell invites us not only to imagine a world without police, but to muster the courage to fight for the more just world we know is possible. *Becoming Abolitionists* is essential reading for our times." — Michelle Alexander, bestselling author of *The New Jim Crow* "At once specific and sweeping, practical and visionary, *Becoming Abolitionists* is a triumph of

political imagination and a tremendous gift to all movements struggling towards liberation. Do not miss its brilliance!" — Naomi Klein, bestselling author of *The Shock Doctrine*

For more than a century, activists in the United States have tried to reform the police. From community policing initiatives to increasing diversity, none of it has stopped the police from killing about three people a day. Millions of people continue to protest police violence because these "solutions" do not match the problem: the police cannot be reformed. In *Becoming Abolitionists*, Purnell draws from her experiences as a lawyer, writer, and organizer initially skeptical about police abolition. She saw too much sexual violence

and buried too many friends to consider getting rid of police in her hometown of St. Louis, let alone the nation. But the police were a placebo. Calling them felt like something, and something feels like everything when the other option seems like nothing. Purnell details how multi-racial social movements rooted in rebellion, risk-taking, and revolutionary love pushed her and a generation of activists toward abolition. The book travels across geography and time, and offers lessons that activists have learned from Ferguson to South Africa, from Reconstruction to contemporary protests against police shootings. Here, Purnell argues that police can not be reformed and invites readers to envision new systems

that work to address the root causes of violence. *Becoming Abolitionists* shows that abolition is not solely about getting rid of police, but a commitment to create and support different answers to the problem of harm in society, and, most excitingly, an opportunity to reduce and eliminate harm in the first place.
