Arnold Alois Schwarzenegger was born on July 30, 1947, in Thal, Styria, the second son of Aurelia (née Jadrny) and Gustav Schwarzenegger. His father was the local chief of police and had served in World War II as a Hauptfeldwebel after voluntarily joining the Nazi Party in 1938. He was wounded in the Battle of Stalingrad, but was discharged in 1943 following a bout of malaria.

This unauthorized biography of Arnold Schwarzenegger looks behind his public image by interviewing his friends, family, lovers, colleagues and rivals. It explores Arnold's troubled boyhood, his relationship with his Nazi father, his sexual exploits and his political ambitions.

Explores the massive man's remarkable life--from his beginnings in Austria, through his rise to fame in the world of bodybuilding, to fulfillment of his dreams in Hollywood and his marriage to Maria Shriver

Explores the massive man's remarkable life--from his beginnings in Austria, through his rise to fame in the world of bodybuilding, to fulfillment of his dreams in Hollywood and his marriage to Maria Shriver

The only child of Hollywood couple Judy Garland and Vincente Minnelli, Liza Minnelli has seen the highs and lows of celebrity life. From a film debut at age 3, three Tonys, an Oscar, parties, addiction, and wrong men, she has survived and is still in the spotlight. 8-page insert.

Arnold Schwarzenegger's first love relives their six-year journey during his explosive first years in America. While she watches Arnold surpass his dreams, Barbara learns to transform hers -- from desiring what cannot be to cherishing what is so. As a woman who spends her adult life trying to get out from under Arnold's shadow, Barbara Baker learns about the shifting direction of life's journey. She hopes for normalcy during and after living with her stratospherically successful Austrian Oak bodybuilder. Barbara finds life anything but normal, however. Within *Arnold and Me*, she strips down this conjoined twosome as they launch their adult lives into polar opposite journeys. After their breakup, Arnold transcends the role of Hercules to become the Governor. He marries once and produces four children; to the contrary, the English Professor says "I do" four times, yet bears no offspring. Along with vintage photos and firsthand dialogue, the book's resolution forces their singular lives to merge at a satisfying junction. Despite their divergent paths, both Arnold and Barbara demonstrate that achieving one's dream demands a relentlessly flexible spirit. Barbara has skillfully rounded

Arnold's corners by offering heartfelt nuances about this man who marked her for life. The author's enlightened voice also resonates with those who face relationship challenges over personal identity and fulfillment. She not only lifts herself into higher consciousness, but also the willing reader. Her journey has allowed her to find life's richness through accepting not only Arnold's daunting shadow, but also her own. This woman sings with energy, incrementally illuminating the rich lives of two ex-lovers within a beautifully developed, fast-paced story. Her readers continue to travel in their minds, breathing in the life of Arnold and Barbara long after the last word has been read.

Describes the childhood, bodybuilding career, and motion picture achievements of the popular celebrity.

Traces Prince Edward's work in the Royal Marines and as a television producer, and looks at his upcoming wedding to Sophie Rhys-Jones

`A comprehensive, well-written and beautifully organized book on publishing articles in the humanities and social sciences that will help its readers write forward with a first-rate guide as good company.' - Joan Bolker, author of *Writing Your Dissertation in Fifteen Minutes a Day* `Humorous, direct, authentic ... a seamless weave of experience, anecdote, and research.' - Kathleen McHugh, professor and director of the UCLA Center for the Study of Women Wendy Laura Belcher's *Writing Your Journal Article in Twelve Weeks: A Guide to Academic Publishing Success* is a revolutionary approach to enabling academic authors to overcome their anxieties and produce the publications that are essential to succeeding in their fields. Each week, readers learn a particular feature of strong articles and work on revising theirs accordingly. At the end of twelve weeks, they send their article to a journal. This invaluable resource is the only guide that focuses specifically on publishing humanities and social science journal articles.

Today's copyright wars can seem unprecedented. Sparked by the digital revolution that has made copyright—and its violation—a part of everyday life, fights over intellectual property have pitted creators, Hollywood, and governments against consumers, pirates, Silicon Valley, and open-access advocates. But while the digital generation can be forgiven for thinking the dispute between, for example, the publishing industry and Google is completely new, the copyright wars in fact stretch back three centuries—and their history is essential to understanding today's battles. *The Copyright Wars*—the first major trans-Atlantic history of copyright from its origins to today—tells this important story. Peter Baldwin explains why the copyright wars have always been driven by a fundamental tension. Should copyright assure authors and rights holders lasting claims, much like conventional property rights, as in Continental Europe? Or should copyright be primarily concerned with giving consumers cheap and easy access to a shared culture, as in Britain and America? *The Copyright Wars* describes how the Continental approach triumphed, dramatically increasing the claims of rights holders. The book also tells the widely forgotten story of how America went from being a leading copyright opponent and pirate in the eighteenth and nineteenth centuries to become the world's intellectual property policeman in the late twentieth. As it became a net cultural exporter and its content industries saw their advantage in the Continental ideology of strong authors' rights, the United States reversed position on copyright, weakening its commitment to the ideal of universal enlightenment—a history that reveals that today's open-access advocates are heirs of a venerable American tradition. Compelling and wide-ranging, *The Copyright Wars* is indispensable for understanding a crucial economic, cultural, and political conflict that has reignited in our own time.
