Though it burst into public consciousness only with the 1999 World Cup, women's soccer has been around almost as long as its male counterpart, flourishing in England during and after World War I. From the rise of women's soccer following Title IX legislation in the early seventies to the watershed 1999 World Cup performance that turned the American team into instant celebrities, soccer is now the most popular sport for girls and women, with participation growing exponentially worldwide. Beyond "Bend It Like Beckham" presents the first in-depth global analysis of the women's game—both where it has come from and where it is headed. With commentary from key players, coaches, and administrators, Timothy F. Grainey follows the sport's reach into the unlikelyest places today, even countries where women were banned from playing soccer just a few short years ago. Though women in the United States and Canada still fight for equal treatment and funding, their situations differs markedly from the hostility, abuse, and even outright bans that some women still encounter in trying to pursue an activity they love. Through the prism of soccer, this book explores the struggle for women's rights abroad, in countries as diverse as Sweden, Russia, South Africa, Pakistan, Australia, and Iran.

Beyond Bollywood is the first comprehensive look at the emergence, development, and significance of contemporary South Asian diasporic cinema. From a feminist and queer perspective, Jigna Desai explores the hybrid cinema of the "Brown Atlantic" through a close look at films in English from and about South Asian diasporas in the United States, Canada, and Britain, including such popular films as My Beautiful Laundrette, Fire, Monsoon Wedding, and Bend it Like Beckham.

This book explores what it is that makes the Beckham brand so resilient and so heroic. Is Beckham the product of a skillful management team able to take advantage of global media? Or is he just a talented footballer blessed with common sense and a rare commercial nous that previous icons lacked?

The sports film has become one of commercial cinema's most recognizable genres. From classic boxing films such as Raging Bull (1980) to soccer-themed box-office successes like Bend It Like Beckham (2002), the sports film stands at the interface of two of our most important cultural forms. This book examines the social, historical and ideological significance of representations of sport in film internationally, an essential guide for all students and enthusiasts of sport, film, media and culture. Sport and Film traces the history of the sports film, from the beginnings of cinema in the 1890s, its consolidation as a distinct fiction genre in the mid 1920s in Hollywood films such as Harold Lloyd's The Freshman (1925), to its contemporary manifestation in Oscar-winning films such as Million Dollar Baby (2004) and The Fighter (2010). Drawing on an extensive range of films as source material, the book explores key issues in the study of sport, film and wider society, including race, social class, gender and the legacy of 9/11. It also offers an invaluable guide to 'reading' a film, to help students fully engage with their source material. Comprehensive, authoritative and accessible, this book is an important addition to the literature in both film and media studies, sport studies and cultural studies more generally.

Seminar paper from the year 2008 in the subject English - Pedagogy, Didactics, Literature Studies, grade: 2, University of Frankfurt (Main) (Institut für England- und Amerikastudien), course: A perfect match?, language: English, abstract: Intercultural communication has become more and more important over the past years because we live in a world where everything is becoming global. A few centuries ago, only people who dealt with international businesses needed to think about intercultural communication and its problems. Today, also ordinary people from different cultures come into contact with each other. Companies work more and more globally instead of locally. We live in a multicultural society with a variety of cultures. Intercultural communication has become a topic which concerns everybody. It will become more and more important in our world of globalization where people from all over the world come together and get in contact with each other. Because of the aspects mentioned above, intercultural learning is an essential part in learning as well as in teaching. Intercultural aspects are involved in our daily life and this is why intercultural teaching is becoming more important. It should be an essential part of modern teaching. The subject English should help to develop students intercultural awareness. The Kultusministerkonferenz considers intercultural learning as a key element of English language teaching. Because of this fact, the KMK put intercultural competence in the educational standards for grades 9 and 10 (cf. http://www.kmk.org/schul/Bildungsstandards/1.Fremdsprache_MSA_BS_04-12-2003.pdf 10.10.2008, p. 16) The novel "Bend it like Beckham" which is discussed in this work is very popular among young people. Football unites people from different nationalities, opinions, generations, classes, religions and cultures (cf. Thaler, 2006, p. 4). The language is understood anywhere in the world and this is why this novel is very adequate for teaching inte

Coming of age is a pivotal experience for everyone. So it is no surprise that filmmakers around the globe explore the experiences of growing up in their work. From blockbuster U.S. movies such as the Harry Potter series to thought-provoking foreign films such as Bend It Like Beckham and Whale Rider, films about youth delve into young people's attitudes, styles, sexuality, race, families, cultures, class, psychology, and ideas. These cinematic representations of youth also reflect perceptions about youth in their respective cultures, as well as young people's worth to the larger society. Indeed, as the contributors to this volume make plain, films about young people open a very revealing window on the attitudes and values of cultures across the globe. Youth Culture in Global Cinema offers the first comprehensive investigation of how young people are portrayed in film around the world. Eighteen established film scholars from eleven different national backgrounds discuss a wide range of films that illuminate the varied conditions in which youth live. The essays are grouped thematically around the issues of youthful resistance and rebellion; cultural and national identity, including religion and politics; and sexual maturation, including gender distinctions and coming-of-age queer. Some essays engage in close readings of films, while others examine the advertising and reception of films or investigate psychological issues. The volume concludes with filmographies of over 700 youth-related titles arranged by nation and theme.
