Access Free Cardiology 1000 Questions And Answers

from the American Heart Association and European Society of Cardiology) and up-to-date information based on current literature. The data and body of knowledge presented in this book are strictly evidence-based which makes it ideal as a revision aid for residents/registrar undertaking their Cardiothoracic Surgery Board examinations around the world. Although these examinations vary in format in different countries, this book is applicable to all cardiothoracic surgical trainees. Its concise, yet complete coverage of the important topics, make it the ideal guide to answer the key questions in cardiac surgery that are asked within the confines of an examination. Cardiologists, cardiothoracic intensive care unit specialists, nursing staff, physiotherapists and other professions allied to medicine, both surgical and cardiological, will also find the book useful in terms of the indications and surgical management of these patients, as they are integral to the cardiac surgical process.

• What causes hypertension in children? • Is it common for epileptic patients to have post-ictal vomiting? If so, how often does this occur? • Why is the incidence of parkinsonism less common in smokers? • What is the role of urine examination in diabetic control? Where do you turn to when you have a difficult medical question that needs answering? The 'Ask the Author' online feature from the best-selling textbook Kumar & Clark's Clinical Medicine has collected a wealth of questions and comments directly from medical students and doctors about topics that are of particular interest or difficulty to them. Kumar and Clark have brought together over 1000 of the questions they have been asked along with their answers. It will appeal to the many fans of Kumar & Clark, from first-year students to practising doctors, and will provide a useful and interesting sounding board to help ensure best practice. This unique book will provide you with a quick and easy way to discover the answers to your own medical questions...! The writing style is appealing and conversational, designed to entertain as well as instruct. Carries the 'Kumar & Clark' stamp of authority. All questions fully indexed for ease of reference. Covers topics that are easily misunderstood in medicine - good preparation for medical students, senior house officers/interns and specialists in training/residents preparing for written or oral exams.
