A 1979 turbo model with only 2700 hours total time and 970 hours on the engine, the airplane was fitted with a standard stack of Cessna radios plus a King DME. The paint was new, but the rest of the airplane was original: a 36-year old, middle-of-the-road family station wagon without a mean bone in its aluminum body.

Owners generally like the airplane and it sold well initially from its introduction in 1978 until the bottom dropped out in the early 1980s. By 1986, the model was gone, along with the rest of Cessnas piston production. Model History . Cessna introduced the R182 Skylane RG in 1978, making almost 600 of them
