Based on Stearns's analysis of Muslim and Christian legal, theological, historical, and medical texts in Arabic, Medieval Castilian, and Latin, Infectious Ideas is the first book to offer a comparative discussion of concepts of contagion in the premodern Mediterranean world.

Presents a selection of the author's poems from throughout his life, from playful early poems to themes of mourning and loss.

Using circuit diagrams, PCB layouts, parts lists and clear construction and installation details, this book provides everything someone with a basic knowledge of electronics needs to know in order to put that knowledge into practice. This latest collection of Maplin projects are a variety of power supply projects, the necessary components for which are readily available from the Maplin catalogue or any of their high street shops. Projects include, laboratory power supply projects for which there are a wide range of applications for the hobbyist, from servicing portable audio and video equipment to charging batteries; and miscellaneous projects such as a split charge unit for use in cars or similar vehicles when an auxiliary battery is used to power 12v accessories in a caravan or trailer. Both useful and innovative, these projects are above all practical and affordable.

A tutorial that teaches the basic features and functions of the latest release of WordPerfect Presentations, in approximately 20 mini-tutorials, each of which can be completed in 10 minutes or less. Timesaving Tips, Plain English definitions and Panic Button advice help users throughout the book.

...the relationship between employment growth and output growth...is greatly affected by the functioning, efficiency and institutional structure of the labor market. --Joseph Stiglitz, Chief Economist Despite the resumption of economic growth in most LAC countries since the late 1980s, improvements on the employment/unemployment front have been sluggish at best, with a few notable exceptions. In many countries, renewed growth in LAC in the 1990s has so far failed to generate adequate new jobs in place of those lost during the adjustment, and to restore wages to pre-crisis levels. The focus of this book is on: Å · the performance of labor markets in the LAC region since the beginning of significant structural reforms most countries in the region have undertaken Å · the structure of labor markets, institutions, and incentive structures; Å · the effects of that structure on employment, earnings, income distribution, and poverty levels; Å · the role of labor market institutions in labor market trends; Å · the options for reform and the benefits of comprehensive labor reforms, as evidenced inside and outside the region; Å · labor policy reforms to improve in a sustainable way the employment/unemployment outlook.

In 1978, Ed Koch assumed control of a city plagued by filth, crime, bankruptcy, and racial tensions. By the end of his mayoral run in 1989 and despite the Wall Street crash of 1987, his administration had begun rebuilding neighborhoods and infrastructure. Unlike many American cities, Koch's New York was growing, not shrinking. Gentrification brought new businesses to neglected corners and converted low-end rental housing to coops and condos. Nevertheless, not all the changes were positive--AIDS, crime, homelessness, and violent racial conflict increased, marking a time of great, if somewhat uneven, transition. For better or worse, Koch's efforts convinced many New Yorkers to embrace a new political order subsidizing business, particularly finance, insurance, and real estate, and privatizing public space. Each phase of the city's recovery required a difficult choice between moneyed interests and social services, forcing Koch to be both a moderate and a pragmatist as he tried to mitigate growing economic inequality. Throughout, Koch's rough rhetoric (attacking his opponents as "crazy," "wackos," and "radicals") prompted charges of being racially divisive. The first book to recast Koch's legacy through personal and mayoral papers, authorized interviews, and oral histories, this volume plots a history of New York City through two rarely studied yet crucial decades: the bankruptcy of the 1970s and the recovery and crash of the 1980s.

When she agrees to take on one of the abused horses just rescued by the local SPCA, a new chapter opens in Susan Richards's difficult life. She lost her mother at the age of five and was raised by uncaring relatives; she married unhappily and divorced; and she'd been an alcoholic. Now, at the age of forty-three, she lives with three horses who keep her company: the diva-like Georgia, boyish Tempo and hopelessly romantic Hotshot. While trying to capture another horse assigned to her, Lay Me Down, a skeletal mare, walks into Susan's horse trailer of her own volition. When Susan agrees to take her, she begins to forge a special, healing relationship that alters her life. Poignant and evocative, this is a book for anyone who has ever loved a horse, and for everyone who has ever lost a loved one.
