Inside the making of a videogame that defined a generation: Grand Theft Auto Grand Theft Auto is one of the biggest and most controversial videogame franchises of all time.

Since its first release in 1997, GTA has pioneered the use of everything from 3D graphics to the voices of top Hollywood actors and repeatedly transformed the world of gaming. Despite its incredible innovations in the $75 billion game industry, it has also been a lightning rod of debate,

spawning accusations of ethnic and sexual discrimination, glamorizing violence, and inciting real-life crimes. Jacked tells the turbulent and mostly unknown story of GTA's wildly ambitious creators, Rockstar Games, the invention and evolution of the franchise, and the cultural and political

backlash it has provoked. Explains how British prep school brothers Sam and Dan Houser took their dream of fame, fortune, and the glamor of American pop culture and transformed it into a worldwide videogame blockbuster Written by David Kushner, author of Masters of Doom and a top

journalist on gaming, and drawn from over ten years of interviews and research, including firsthand knowledge of Grand Theft Auto's creators and detractors Offers inside details on key episodes in the development of the series, including the financial turmoil of Rockstar

games, the infamous "Hot Coffee" sex mini-game incident, and more Whether you love Grand Theft Auto or hate it, or just want to understand the defining entertainment product of a generation, you'll want to read Jacked and get the real story behind this boundary-pushing game.

When NBA Jam dunked its way into

arcades in 1993, players discovered just how fun basketball can be when freed from rules, refs, and gravity itself. But just a few years after the billion-dollar hit conquered the world, developer Midway, publisher Acclaim, and video arcades themselves fell off the map. How did a simple two-on-two

basketball game become MVP of the arcade, and how did this champ lose its title? Journalist Reyan Ali dives deep into the saga, tracking the people and decisions that shaped the series. You'll get to know mischievous Jam architect Mark Turmell, go inside Midway's Chicago office where hungry

young talent tapped into cutting-edge tech, and explore the sequels, spin-offs, and tributes that came in the game's wake. Built out of exhaustive research and original interviews with a star-studded cast including Turmell and his original development team, iconic commentator Tim Kitzrow,

businessmen and developers at Midway and Acclaim alike, secret characters George Clinton and DJ Jazzy Jeff, Doom co-creator John Romero, and 1990s NBA demigods Glen Rice and Shaq□Ali's NBA Jam returns you to an era when coin-op was king.
