Accounting Business Communication Business Law Business Mathematics Business Statistics & Analytics Computer & Information Technology Decision Sciences & Operations Management Economics Finance Keyboarding Introduction to Business Insurance and Real Estate Management Information Systems Management Marketing, Humanities, Social Science and ...

This textbook, originally by D. Annand and H. Dauderis, was intended for a first course in introductory financial accounting. It focuses on core introductory financial accounting topics that match pre-requisite requirements for students advancing to Intermediate Financial Accounting. A corporate approach is utilized versus beginning with a sole proprietorship emphasis and then converting to a corporate approach; this consistency throughout the book reduces confusion for the introductory student. This most recent revision by D. Marchand converted the text from IFRS to reflect the Generally Accepted Accounting Principles of the United States (U.S. GAAP).

More students get accounting when using Weygandt, Kimmel, Kieso, Financial Accounting, 10th Edition because of the unique Framework of Success created and refined by the authors based on years of teaching and course design experience. In WileyPLUS and in print, clear and relevant exposition, engaging visuals and videos, and valuable end-of-chapter material work together to build students ' confidence and mastery of accounting concepts and skills. The new 10th edition of Financial Accounting by Weygandt, Kimmel, and Kieso continues to provide students with a clear and comprehensive introduction to financial accounting and has been thoroughly updated with extensive digital resources to further enhance student learning and success.

This book is a self-study guide written for someone who wishes to teach themselves basic financial accounting. It is based on a course by the same author that has been successfully completed by thousands of students worldwide. It explains concepts in simple language with illustrative examples, provides review questions and quizzes after each chapter and section, and contains two full-length practice exams at the end of the book. This book compares and contrasts US GAAP and IFRS for every topic covered in the book.

Provides an introduction to financial accounting for non-financial managers by way of a transaction-based, business training tool. Includes real-life examples of how financial statements are built and how they interact to present a true financial picture of the enterprise.
