World after world was visited, secret after secret unleashed, and turned to mighty weapons of intense force--and still the Thessian enemy seemed to grow in power and ferocity. bolt of pure ravening energy--until it appeared that the universe itself might end in one final flare of furious torrential power... In this special Armchair Fiction edition of John W. Campbell's "Invaders from the Infinite" you get not only a classic science fiction novel, but all of the original H. W. Wesso illustrations, just as they appeared in the Spring-Summer 1932 Edition of Amazing Stories Quarterly.

A sky pirate armed with superior weapons of his own invention, first contact with an alien race dangerous enough to threaten the safety of two planets and the arrival of an unseen dark sun whose attendant marauders aimed at the very end of civilization in this Solar System. These were the first three challenges of many that tested the skill and minds of the brilliant team of scientist-astronauts Arcot, Wade, and Morey.

contact with an alien species. Finally, they must defend the solar system from invaders whose own star has long since gone dark. Originally published separately as "Piracy Preferred" in Amazing Stories June 1930 edition, "Solarite" in Amazing Stories November 1930, and "The Black Star Passes" in Amazing Stories Quarterly Fall 1930, these three novellas were edited and collected into this volume in 1953. This is the first book in John W. Campbell's Arcot, Morey, and Wade trilogy. Most famous for editing Astounding Science Fiction and Fact magazine and introducing Isaac Asimov, Robert Heinlein, and many other great science fiction authors to the world, Campbell's other notable works include the novella "Who Goes There?", which was adapted to film as The Thing by John Carpenter in 1982.
