New York Times Bestseller: An "elegant" mosaic of trenchant observations on the late sixties and seventies from the author of *Slouching Towards Bethlehem* (*The New Yorker*). In this landmark essay collection, Joan Didion brilliantly interweaves her own "bad dreams" with those of a nation confronting the dark underside of 1960s counterculture. From a jailhouse visit to Black Panther Party cofounder Huey Newton to witnessing First Lady of California Nancy Reagan pretend to pick flowers for the benefit of news cameras, Didion captures the paranoia and absurdity of the era with her signature blend of irony and insight. She takes readers to the "giddily splendid" Getty Museum in Los Angeles, the cool mountains of Bogot\u00e1, and the Jordanian Desert, where Bishop James Pike went to walk in Jesus's footsteps—and died not far from his rented Ford Cortina. She anatomizes the culture of shopping malls—"toy garden cities in which no one lives but everyone consumes"—and exposes the contradictions and compromises of the women's movement. In the iconic title essay, she documents her uneasy state of mind during the years leading up to and following the Manson murders—a terrifying crime that, in her memory, surprised no one. Written in "a voice like no other in contemporary journalism," *The White Album* is a masterpiece of literary reportage and a fearless work of autobiography by the National Book Award–winning author of *The Year of Magical Thinking* (*The New York Times Book Review*). Its power to electrify and inform remains undiminished nearly forty years after it was first published.

Essays on the author's experiences with American culture in the 1960s and 1970s.

This comprehensive edition brings together three seminal collections by legendary essayist and journalist Joan Didion: *Slouching toward Bethlehem*, *White Album* and *Sentimental Journeys*. **WE TELL OURSELVES STORIES IN ORDER TO LIVE** Looking for plausible stories as the Sixties are about to implode, Joan Didion sets out, notebook in hand, on a now-legendary journey into the hinterland of the American psyche: she kills time waiting for Jim Morrison to show up, parties with Janis Joplin, visits the Black Panthers in prison, watches a campus combust, dines with Tate and Polanski, buys dresses with Charlie Manson's girls, and gravitates towards biker movies 'because there on screen was some news I was not getting from the *New York Times*'. She and her reader emerge, cauterized, from this devastating tour of the myths and realities of that age of self-discovery into the harsh light of the morning after...

A definitive compilation of essays and nonfiction writings spanning more than forty years includes the author's reflections on politics, lifestyle, place, and cultural figures, including her studies of Haight-Ashbury, the Manson family, the Black Panthers, California earthquakes, Bill Clinton and Kenneth Starr, and much more.

Three essential works that redefined the art of journalism by "one of our sharpest and most trustworthy cultural observers" (*The New York Times*). In these masterpieces of razor-sharp reportage, the National Book Award–winning and *New York Times*–bestselling author proves herself one of the premier essayists of the twentieth century, "an articulate witness to the most stubborn and intractable truths of our time" (Joyce Carol Oates, *The New York Times Book Review*). *Slouching Towards Bethlehem*: America in the 1960s—a pivotal era of social change and generational divide. Here is Joan Didion on the "misplaced children" of Haight-Ashbury as well as John Wayne in Hollywood; folk singer Joan Baez and reclusive billionaire Howard Hughes; the extremes of both Death Valley and Las Vegas. Named to *Time* magazine's list of the one hundred best and most influential nonfiction books, this is "a rare display of some of the best prose written today in this country" (*The New York Times Book Review*). *The White Album*: A *New York Times* bestseller, this landmark essay collection confronts the dark aftermath of the 1960s. From a jailhouse visit to Huey Newton, cofounder of the Black Panther Party, to a recording session with *The Doors*, from the culture of shopping malls to the contradictions of the women's movement, Joan Didion captures the paranoia and absurdity of the era with irony and insight. And in the iconic title essay, she documents her uneasy state of mind during the years leading up to and following the Manson murders—a terrifying crime that, in her memory, surprised no one. After Henry: Whether reporting on a Hollywood murder or the "sideshows" of foreign wars, Joan Didion crystalizes her reputation as a brilliant essayist. Highlights include a portrait of the White House under the Reagans, two "actors on location"; an unexpected meditation on the Patty Hearst case; and an expos\u00e9 on the racial divisions and class fault lines of New York City following the rape of the Central Park jogger. An indispensable collection from a writer on whom we can rely "to get the story straight" (*Los Angeles Times*).

Incisive essays on Patty Hearst and Reagan, the Central Park jogger and the Santa Ana winds, from the *New York Times*–bestselling author of *South and West*. In these eleven essays covering the national scene from Washington, DC; California; and New York, the acclaimed author of *Slouching Towards Bethlehem* and *The White Album* "capture[s] the mood of America" and confirms her reputation as one of our sharpest and most trustworthy cultural observers (*The New York Times*). Whether dissecting the 1988 presidential campaign, exploring the commercialization of a Hollywood murder, or reporting on the "sideshows" of foreign wars, Joan Didion proves that she is one of the premier essayists of the twentieth century, "an articulate witness to the most stubborn and intractable truths of our time" (Joyce Carol Oates, *The New York Times Book Review*). Highlights include "In the Realm of the Fisher King," a portrait of the White House under the stewardship of Ronald and Nancy Reagan, two "actors on location;" and "Girl of the Golden West," a meditation on the Patty Hearst case that draws an unexpected and insightful parallel between the kidnapped heiress and the emigrants who settled California. "Sentimental Journeys" is a deeply felt study of New York media coverage of the brutal rape of a white investment banker in Central Park, a notorious crime that exposed the city's racial and class fault lines. Dedicated to Henry Robbins, Didion's friend and editor from 1966 until his death in 1979, *After Henry* is an indispensable collection of "superior reporting and criticism" from a writer on whom we have relied for more than fifty years "to get the story straight" (*Los Angeles Times*).

NEW YORK TIMES BEST SELLER • From one of our most iconic and influential writers, the award-winning author of *The Year of Magical Thinking*: a timeless collection of mostly early pieces that reveal what would become Joan Didion's subjects, including the press, politics, California robber barons, women, and her own self-doubt. These twelve pieces from 1968 to 2000, never before gathered together, offer an illuminating glimpse into the mind and process of a legendary figure. They showcase Joan Didion's incisive reporting, her empathetic gaze, and her role as "an articulate witness to the most stubborn and intractable truths of our time" (*The New York Times Book Review*). Here, Didion touches on topics ranging from newspapers ("the problem is not so much whether one trusts the news as to whether one finds it"), to the fantasy of San Simeon, to not getting into Stanford. In "Why I Write," Didion ponders the act of writing: "I write entirely to find out what I'm thinking, what I'm looking at, what I see and what it means." From her admiration for Hemingway's sentences to her acknowledgment that Martha Stewart's story is one "that has historically encouraged women in this country, even as it has threatened men," these essays are acutely and brilliantly observed. Each piece is classic Didion: incisive, bemused, and stunningly prescient.

An incisive compilation of political essays, originally written for *The New York Review of Books* from 1988 to 2000, explores the nature of American politics and political figures and the role of the media in transforming the American political landscape. Reprint. 35,000 first printing.

In this dramatic adaptation of her award-winning, bestselling memoir, Joan Didion transforms the story of the sudden and unexpected loss of her husband and their only daughter into a stunning and powerful one-woman play. "This happened on December 30, 2003. That may seem a while ago but it won't when it happens to you . . ." Michiko Kakutani in *The New York Times* called the memoir that was the basis for the play, "an indelible portrait of loss and grief . . . a haunting portrait of a four-decade-long marriage." The first theatrical production of *The Year of Magical Thinking* opened at the Booth Theatre on March 29, 2007, starring Vanessa Redgrave and directed by David Hare.

NATIONAL BESTSELLER • "One of contemporary literature's most revered essayists revives her raw records from a 1970s road trip across the American southwest ... her acute observations of the country's culture and history feel particularly resonant today." —Harper's Bazaar Joan Didion, the bestselling, award-winning author of *The Year of Magical Thinking* and *Let Me Tell You What I Mean*, has always kept notebooks—of overheard dialogue, interviews, drafts of essays, copies of articles. Here are two extended excerpts from notebooks she kept in the 1970s; read together, they form a piercing view of the American political and cultural landscape. "Notes on the South" traces a road trip that she and her husband, John Gregory Dunne, took through Louisiana, Mississippi, and Alabama. Her acute observations about the small towns they pass through, her interviews with local figures, and their preoccupation with race, class, and heritage suggest a South largely unchanged today. "California Notes" began as an assignment from Rolling Stone on the Patty Hearst trial. Though Didion never wrote the piece, the time she spent watching the trial in San Francisco triggered thoughts about the West and her own upbringing in Sacramento. Here we not only see Didion's signature irony and imagination in play, we're also granted an illuminating glimpse into her mind and process.
