Prepare a copy of your learning area ' s original K-12 Curriculum Guide and corresponding list of MELCs. Go to the sections of the curriculum guide and MELCs that are relevant to your instructional needs. Copy and accomplish the following table and compare the two documents to determine which learning competencies were retained, dropped, or merged.

Science, engineering, and technology permeate nearly every facet of modern life and hold the key to solving many of humanity's most pressing current and future challenges. The United States' position in the global economy is declining, in part because U.S. workers lack fundamental knowledge in these fields. To address the critical issues of U.S. competitiveness and to better prepare the workforce, A Framework for K-12 Science Education proposes a new approach to K-12 science education that will capture students' interest and provide them with the necessary foundational knowledge in the field. A Framework for K-12 Science Education outlines a broad set of expectations for students in science and engineering in grades K-12. These expectations will inform the development of new standards for K-12 science education and, subsequently, revisions to curriculum, instruction, assessment, and professional development for educators. This book identifies three dimensions that convey the core ideas and practices around which science and engineering education in these grades should be built. These three dimensions are: crosscutting concepts that unify the study of science through their common application across science and engineering; scientific and engineering practices; and disciplinary core ideas in the physical sciences, life sciences, and earth and space sciences and for engineering, technology, and the applications of science. The overarching goal is for all high school graduates to have sufficient knowledge of science and engineering to engage in public discussions on science-related issues, be careful consumers of scientific and technical information, and enter the careers of their choice. A Framework for K-12 Science Education is the first step in a process that can inform state-level decisions and achieve a research-grounded basis for improving science instruction and learning across the country. The book will guide standards developers, teachers, curriculum designers, assessment developers, state and district science administrators, and educators who teach science in informal environments.

As your school district undertakes the process of evaluating its K–12 reading program, literacy curriculum, or literacy instructional practices, this book will be your go-to resource. Pennell offers a step-by-step guide for educators, school leaders, or professional learning communities to evaluate high-quality instructional materials and standards-aligned literacy practices. It includes a wealth of tools such as timelines, full meeting agendas, stakeholder surveys, and evaluation rubrics. Chapters cover key topics, including: Literacy leadership team meetings Reviewing foundational skills Comprehension and vocabulary Evaluating writing Selecting new materials Implementing new literacy materials Supporting educators through instructional coaching and professional learning Pennell provides a straightforward framework for how educators can work together collaboratively to analyze, reflect, and ultimately evaluate their school district ' s literacy program. Each chapter is grounded in salient research on the why of literacy teaching and learning and helps you understand how instruction can be meaningfully aligned with current standards. The research and theory that support effective literacy instruction—including culturally responsive practices—are explained in an accessible and pragmatic manner. The practical tools in this book are essential for administrators and educators tasked with evaluating literacy programs and practices, as well as graduate students who must learn how to audit a literacy curriculum. Whether you ' re a school administrator, teacher, or reading specialist, this book will ensure all your students can reach success in literacy.
