What would you risk to be free? It's 1776 and Isabel, Curzon, and Ruth have only ever known life as slaves. But now the young country of America is in turmoil—there are whisperings, then cries, of freedom from England spreading like fire, and with it is a whole new type of danger. For freedom being fought for one isn't necessarily freedom being fought for all...especially if you are a slave. But if an entire nation can seek its freedom, why can't they? As war breaks out, sides must be chosen, death is at every turn, and one question forever rings in their ears: Would you risk everything to be free? As battles rage up and down the Eastern seaboard, Isabel, Curzon, and Ruth flee, separate, fight, face unparalleled heartbreak and, just like war, they must depend on their allies—and each other—if they are to survive. Which leads to a second, harrowing question: Amidst so much pain and destruction, can they even recognize who their allies are?

When it was published in 1932, this revolutionary first fiction redefined the art of the novel with its black humor, its nihilism, and its irreverent, explosive writing style, and made Louis-Ferdinand Celine one of France's--and literature's--most important 20th-century writers. The picaresque adventures of Bardamu, the sarcastic and brilliant antihero of *Journey to the End of the Night* move from the battlefields of World War I (complete with buffoonish officers and cowardly soldiers), to French West Africa, the United States, and back to France in a style of prose that's lyrical, hallucinatory, and hilariously scathing toward nearly everybody and everything. Yet, beneath it all one can detect a gentle core of idealism.

Ever since 1759, when Voltaire wrote "*Candide*" in ridicule of the notion that this is the best of all possible worlds, this world has been a gayer place for readers. Voltaire wrote it in three days, and five or six generations have found that its laughter does not grow old. "*Candide*" has not aged. Yet how different the book would have looked if Voltaire had written it a hundred and fifty years later than 1759. It would have been, among other things, a book of sights and sounds. A modern writer would have tried

to catch and fix in words some of those Atlantic changes which broke the Atlantic monotony of that voyage from Cadiz to Buenos Ayres. When Martin and Candide were sailing the length of the Mediterranean we should have had a contrast between naked scarped Balearic cliffs and headlands of Calabria in their mists. We should have had quarter distances, far horizons, the altering silhouettes of an Ionian island. Colored birds would have filled Paraguay with their silver or acid cries. Dr. Pangloss, to prove the existence of design in the universe, says that noses were made to carry spectacles, and so we have spectacles. A modern satirist would not try to paint with Voltaire's quick brush the doctrine that he wanted to expose. And he would choose a more complicated doctrine than Dr. Pangloss's optimism, would study it more closely, feel his destructive way about it with a more learned and caressing malice. His attack, stealthier, more flexible and more patient than Voltaire's, would call upon us, especially when his learning got a little out of control, to be more than patient. Now and then he would bore us. "Candide" never bored anybody except William Wordsworth. Voltaire's men and women point his case against optimism by starting high and falling low. A modern could not go about it after this fashion. He would not plunge his people into an unfamiliar misery. He would just keep them in the misery they were born to.

History in your hands... Charles Darwin single-handedly revolutionised the way humanity viewed itself. His theory of natural selection, though shocking and controversial at the time, paved the way for a whole new understanding of both the planet and our place on it. Charles Darwin reveals the famous scientist's life in compelling detail as never before. From his early expedition aboard the Beagle leading to his research in the Galapagos Islands, which brought him into contact with some of nature's most extraordinary creatures, this book examines Darwin's own experiences to show how he created the theories for which he became famous. Drawing on recent studies, it also features at least 30 rare and newly researched removable items of facsimile memorabilia, such as diaries, maps, letters, newspapers, sketches and pages from scientific notebooks. You have heard of the man who changed the world, now you can witness how he did it.

Century to help us all make sense of a chaotic new world.

IN a little place called Le Monastier, in a pleasant highland valley fifteen miles from Le Puy, I spent about a month of fine days. Monastier is notable for the making of lace, for drunkenness, for freedom of language, and for unparalleled political dissension. There are adherents of each of the four French parties - Legitimists, Orleanists, Imperialists, and Republicans - in this little mountain-town; and they all hate, loathe, decry, and calumniate each other. Except for business purposes, or to give each other the lie in a tavern brawl, they have laid aside even the civility of speech. 'Tis a mere mountain Poland. In the midst of this Babylon I found myself a rallying-point; every one was anxious to be kind and helpful to the stranger. This was not merely from the natural hospitality of mountain people, nor even from the surprise with which I was regarded as a man living of his own free will in Le Monastier, when he might just as well have lived anywhere else in this big world; it arose a good deal from my projected excursion southward through the Cevennes. A traveller of my sort was a thing hitherto unheard of in that district. I was looked upon with contempt, like a man who should project a journey to the moon, but yet with a respectful interest, like one setting forth for the inclement Pole. All were ready to

help in my preparations; a crowd of sympathisers supported me at the critical moment of a bargain; not a step was taken but was heralded by glasses round and celebrated by a dinner or a breakfast.

Set in a luxurious grand hotel just outside Lisbon, at the height of the Second World War, Estoril is a delightful and poignant novel about exile, divided loyalties, fear and survival. The hotel's guests include spies, fallen kings, refugees from the Balkans, Nazis, American diplomats and stateless Jews. The Portuguese secret police broodingly observe the visitors, terrified that their country's neutrality will be compromised. The novel seamlessly fuses the stories of its invented characters with appearances by historical figures like the ex-King Carol of Romania, the great Polish pianist Jan Paderewski, the British agent Ian Fleming, the Russian chess grandmaster Alexander Alekhine and the French writer and flyer Antoine de St Exupery, who forms a poignant friendship with a young Jewish boy living alone in the hotel.
