I purchased an LTX 1050 as a replacement for my 12 yr old riding mower. What a difference!! My old mower did not have overlapping blade cutting like the Cub Cadet and I'd have two little strips of uncut grass with each pass. I always had to over lap my previous cut to have a smooth cut. But not with the LTX!

This manual covers the various types of auxiliary power generating systems used on military installations. It provides data for the major components of these generating systems; such as, prime movers, generators, and switchgear. It includes operation of the auxiliary generating system components and the routine maintenance which should be performed on these components. It also describes the functional relationship of these components and the supporting equipment within the complete system. The guidance and data in this manual are intended to be used by operating, maintenance, and repair personnel. It includes operating instructions, standard inspections, safety precautions, troubleshooting, and maintenance instructions. The information applies to reciprocating (diesel) and gas turbine prime movers, power generators, switchgear, and subsidiary electrical components. It also covers fuel, air, lubricating, cooling, and starting systems.
