Through journal entries, sixteen-year-old Miranda describes her family's struggle to survive after a meteor hits the moon, causing worldwide tsunamis, earthquakes, and volcanic eruptions.

Sparks fly between a grumpy single father and a compassionate lawyer in "a sweet, homespun romance that tugs at the heartstrings in all the right ways" (Entertainment Weekly) -- perfect for fans of New York Times bestselling authors Jill Shalvis and Lori Foster and USA Today bestselling author Jamie Beck. Gabby Langdon has always tried to make people happy. She even went to law school to please her father, and now she's a highly successful-albeit bored-attorney. But Gabby secretly dreams of being a writer, so for once she does something for herself-she signs up for a writing class taught by best-selling novelist Caden Marshall. There's only one problem: her brooding, sexy professor is a distraction she can't afford if she's finally going to get the life she truly wants. Recently divorced and suffering from the world's worst case of writer's block, Caden is in Angel Falls to get his life back on track. He's focused on teaching and providing a stable and loving home for his young daughter, Ava. The last thing he needs is to jeopardize his new job, which means keeping plenty of distance between himself and his talented new student-no matter how tempted he is by Gabby's beauty, kind heart, or the sparks that fly whenever they're together. Includes the bonus novella Meant to Be by Alison Bliss! What readers are saying about The Way You Love Me: "People who love small town romances and fun families will enjoy this." "A delightful read." "Liasson continues to lead with her heart and turn reading into an emotionally fulfilling experience." "[A] wonderful, heartwarming story of struggle, hope, and love." Original.

A man no woman wants... Grieving widower John Weaver needs a mother for his five-year-old twin daughters. No woman he knows is willing to take on a ready-made family, so he resorts to advertising for a mail-order bride. He has no intention of ever loving another woman, and as long as his mail-order bride understands that, they can have a good life together. A woman no man wants... Miranda Lowe knows she isn't enough—not pretty enough, not smart enough, not good enough in any way to attract a man. When she loses her family, her home and her job on the same day, she sees no other choice but to become a mail-order bride. Surely a man who 's willing to marry a woman he 's never seen won't be too picky. But sometimes, being less than perfect is more than enough.

The thrilling prequel to the award-winning video game from BioWare Every advanced society in the galaxy relies on the technology of the Protheans, an ancient species that vanished fifty thousand years ago. After discovering a cache of Prothean technology on Mars in 2148, humanity is spreading to the stars; the newest interstellar species, struggling to carve out its place in the greater galactic community. On the edge of colonized space, ship commander and Alliance war hero David Anderson investigates the remains of a top secret military research station; smoking ruins littered with bodies and unanswered questions. Who attacked this post and for what purpose? And where is Kahlee Sanders, the young scientist who mysteriously vanished from the base — hours before her colleagues were slaughtered? Sanders is now the prime suspect, but finding her creates more problems for Anderson than it solves. Partnered with a rogue alien agent he can't trust and pursued by an assassin he can't escape, Anderson battles impossible odds on uncharted worlds to uncover a sinister conspiracy . . . one he won't live to tell about. Or so the enemy thinks. BONUS: This edition includes an excerpt from Drew Karpshyn's Mass Effect: Ascension.

When they vanished fifty thousand years ago, the Protheans left their advanced technology scattered throughout the galaxy. The chance discovery of a Prothean cache on Mars allows humanity to join those already reaping the rewards of the ancients ' high-tech wizardry. But for one rogue militia, the goal is not participation but domination. Scientist Kahlee Sanders has left the Systems Alliance for the Ascension Project, a program that helps gifted " biotic " children harness their extraordinary powers. The program 's most promising student is twelve-year-old Gillian Grayson, who is borderline autistic. What Kahlee doesn't know is that Gillian is an unwitting pawn of the outlawed black ops group Cerberus, which is sabotaging the program by conducting illegal experiments on the students. When the Cerberus plot is exposed, Gillian 's father takes her away from the Ascension Project and flees into the lawless Terminus Systems. Determined to protect Gillian, Kahlee goes with them... unaware that the elder Grayson is, in fact, a Cerberus operative. To rescue the young girl Kahlee must travel to the farthest ends of the galaxy, battling fierce enemies and impossible odds. But how will she be able to save a daughter from her own father? This novel is based on a Mature-rated video game.

For sharp-tongued food critic Miranda Wake, the chance to spend a month in Adam Temple's kitchen to write an expos é is a journalistic dream come true. Surely Miranda can find a way to cut the hotshot chef down to size once she learns what really goes on at his trendy Manhattan restaurant. But she never expected Adam to find out her most embarrassing secret: she has no idea how to cook. Adam's not about to have his reputation burned by a critic who doesn't even know the difference between poaching and paring. He'll just have to give the tempting redhead a few private lessons of his own—teaching her what it means to cook with passion...and doing more with his hands than simply preparing sumptuous food.
