Fuels, Lubricants, Coolants, and Filters easily helps a reader to understand these wonderful liquids and filters better. By starting with the basics, it builds your knowledge step-by-step in a very structured manner.

The book is about a young man, Rohan, a trainee pilot, who is sent abroad for training. He is trapped by drug mafia and the adventure starts. His father moves for his rescue and he too is trapped. The story is full of so many twists and surprises that it will not be fair to disclose any part or outline of the story, as it will mar the thrill of reading the book. The story includes everything from a crime plot, mystery, hijacking, air-crashes, skullduggery, detective work, suspense, thrill, mathematical deductions, adventure and a beautifully ended story. It will be surprising to know that the lost pilot mentioned here is not Rohan but some one else.
