Struggling with debt? Frustrated about work? Just not satisfied with life? The Simple Dollar can change your life. Trent Hamm found himself drowning in consumer debt, working in a job he couldn't stand... and figured out how to escape that debt and build the fulfilling career he'd always dreamt about, all at the same time. Hamm shared his experiences at TheSimpleDollar.com—and built it into one of America's top personal finance websites. Now, The Simple Dollar is a book: packed with practical tips, tools, and lessons you can use to transform your life, too. This isn't just “another” personal finance book: it's profoundly motivating, empowering, practical, and 100% grounded in today's American realities. Trent Hamm will show you how to rewrite the rules, creating healthier relationships with money... and with your loved ones, too. With his help, you can get out of debt, start moving forward, and build the strong personal community that offers true happiness—no matter what happens to the economy.

- Escape the plastic prison, and stop running to stand still 5 simple steps to eliminate credit card debt... and 5 more to start moving forward
- Shift your life's balance towards more positive, stronger relationships Learn how to put the golden rule to work for you
- Discover the power of goals in a random world Then, learn how to overcome inertia, and transform goals into reality
- Navigate the treacherous boundaries between love and money Move towards deeper communication, greater honesty, and more courage

The American Water Works Association Research Foundation (AWWARF) and 22 municipalities, water utilities, water purveyors, water districts and water providers funded this study. Goals of this research included: Providing specific data on the end uses of water in residential settings across the continent; Assembling data on disaggregated indoor and outdoor uses; Identifying variations in water used for each fixture or appliance according to a variety of factors; and Developing predictive models forecast residential water demand. This report represents a time and place snapshot of how water is used in single-family homes in twelve North American locations. Similarities and differences among 'end users' were tabulated for each location, analyzed and summarized. Great care was taken to create a statistically significant representative sample of customer for each of the twelve locations. However, these twelve locations are not statistically representative of all North American locations.
