PURPOSE. This pamphlet serves as a guide to provide commanders of military treatment facilities (MTFs) standardized clinical algorithms for use by screening personnel in determining the urgency and level of care that the active duty (AD) Soldier requires and, when appropriate, in providing minor treatment to him. RESPONSIBILITIES. a. The MTF commander will— (1) Ensure that screeners are provided adequate supervision in accordance with paragraph 11 of this pamphlet and performance evaluation by a physician, physician assistant (PA), or other qualified provider specifically assigned this responsibility. (2) Ensure that the individual screener's scope of practice with regard to evaluating, treating, and/or determining the disposition of AD sick call patients is delineated in writing and that it is reviewed and revised at least annually. (3) Approve the list of self-care medications, as recommended by the pharmacy and therapeutics committee (see AR 40-3) to be dispensed by screeners. (4) Ensure implementation of the performance improvement (PI) requirements in paragraph 13 of this pamphlet. (5) Establish a local training program for screeners to include table of organization and equipment personnel when they function as screeners. (6) Ensure documentation of completed training in the screener's competency assessment file (CAF). b. The TMC/BAS supervising medical officer will— (1) Certify in writing that clinic personnel performing the screening function have received training and evaluation in the proper use of the algorithm-directed troop medical care (ADTMC). (2) Ensure training, retraining, and inservice education as necessary to support the overall program. (3) Promote screener training by encouraging medical officers to see patients jointly with the screeners.

AR 40-656 08/28/2006 VETERINARY SURVEILLANCE INSPECTION OF SUBSISTENCE , Survival Ebooks

This regulation encompasses garrison, field, and subsistence supply operations. Specifically, this regulation comprises Army Staff and major Army command responsibilities and includes responsibilities for the Installation Management Command and subordinate regions. It also establishes policy for the adoption of an à la carte dining facility and for watercraft to provide subsistence when underway or in dock. Additionally, the regulation identifies DOD 7000.14–R as the source of meal rates for reimbursement purposes; delegates the approval authority for catered meals and host nation meals from Headquarters, Department of the Army to the Army commands; and authorizes the use of the Government purchase card for subsistence purchases when in the best interest of the Government. This regulation allows prime vendors as the source of garrison supply and pricing and provides garrison menu standards in accordance with The Surgeon General's nutrition standards for feeding military personnel. Also, included is

guidance for the implementation of the U.S. Department of Agriculture Food Recovery Program.

Reviews topics such as epidemiology, deployment health, reproductive and genitourinary issues, mothering, sexuality, PTSD and other psychological effects of war, wounds and disability, intimate partner violence, sexual assault, and suicide. It provides health care providers with insight that can help prepare and prevent illness in the female military population by bringing together researchers, clinicians, and service member experience and knowledge and presents the information in a practical, actionable format. It also highlights areas where data is lacking and more study is demanded--Cover.

AR 385-10 11/27/2013 THE ARMY SAFETY PROGRAM , Survival Ebooks

The Army physician assistant (PA) has an important role throughout Army medicine. This handbook will describe the myriad positions and organizations in which PAs play leadership roles in management and patient care. Chapters also cover PA education, certification, continuing training, and career progression. Topics include the Interservice PA Program, assignments at the White House and the Old Guard (3d US Infantry Regiment), and roles in research and recruiting, as well as the PA's role in emergency medicine, aeromedical evacuation, clinical care, surgery, and occupational health.
