After launch of Hemang Doshi's CISA Video series, there was huge demand for simplified text version for CISA Studies. This book has been designed on the basis of official resources of ISACA with more simplified and lucid language and explanation. Book has been designed considering following objectives:* CISA aspirants with non-technical background can easily grasp the subject. * Use of SmartArts to review topics at the shortest possible time.* Topics have been profusely illustrated with diagrams and examples to make the concept more practical and simple. * To get good score in CISA, 2 things are very important. One is to understand the concept and second is how to deal with same in exam. This book takes care of both the aspects.* Topics are aligned as per official CISA Review Manual. This book can be used to supplement CRM.* Questions, Answers & Explanations (QAE) are available for each topic for better understanding. QAEs are designed as per actual exam pattern. * Book contains last minute revision for each topic. * Book is designed as per exam perspective. We have purposefully avoided certain topics which have nil or negligible weightage in cisa exam. To cover entire syllabus, it is highly recommended to study CRM.* We will feel immensely rewarded if CISA aspirants find this book helpful in achieving grand success in academic as well as professional world.

"When we believe the Bible as it is, we will see the power of God move in our lives and in our community as it did centuries ago in Bible times." -Mel Tari Translated into dozens of languages, with millions of copies sold, Like a Mighty Wind remains a beloved classic from global evangelist Mel Tari. Recounting the incredible story of revival on the island of Timor during 1965 in the midst of political turmoil, the book is an amazing testament to the power of faith and the reality of God's power to work miracles in modern times. The Spirit of God that swept across the island "like a mighty wind" continues today throughout Indonesia although persecution of Christians is all too common. The story of God's powerful revival in this region remains a testament to the truth of God's Word, and serves as a reminder to all believers that the Spirit of God manifests in our world now as it did in the earliest days of the Church.

Ibn Battutah set out in 1325 from his native Tangier on the pilgrimage to Mecca. By the time he returned twenty-nine years later, he had visited most of the known world, travelling three times the distance Marco Polo covered. Spiritual backpacker, social climber, temporary hermit and failed ambassador, he braved brigands, blisters and his own prejudices. The outcome was a monumental travel classic. Captivated by this indefatigable man, award-winning travel writer Tim Mackintosh-Smith set out on his own eventful journey, retracing the Moroccan's eccentric trip from Tangier to Constantinople. Tim proves himself a perfect companion to this distant traveller, and the result is an amazing blend of personalities, history and contemporary observation.

Parrots have long been favorite pets, and the conures are some of the most popular parrots. These pint-size companions are famous for their exuberant, playful personalities and clownish antics. Some species of conure are among the most spectacularly colored parrots. All conures can make delightful family pets when properly trained and cared for. This book includes all aspects of proper housing, nutrition, and health care, as well as training techniques that both parrot and owner will enjoy.

Creating Effective Learning Environments takes curriculum development to another level: it fills the gap between theory and practice. This text helps readers see the curriculum from a child's perspective and understand how that perspective is linked to learning and theory. It is the author's view that the centre of any curriculum is the child; this text begins not with general theories or applications that are suitable for many, but with each individual child. The theory and methodology of this text are integrated around the actual experiences of children, presented in a logical flow, and embracing current philosophies about integration, play, bias, and learning practices.

The form of constitution that replaced feudalism and absolutism was democracy; the form of government, plutocracy. Today, democracy is a fa\u00e7ade of plutocracy: since nations would not tolerate a pure form of plutocracy, they were granted nominal powers, while the real power rests in the hands of plutocrats. In republican as well as monarchical democracies, the statesmen are puppets, the capitalists are the puppeteers; they dictate the guidelines of politics, rule through purchase the public opinion of the voters, and through professional and social relationships, the ministers. Instead of the feudal structure of society, the plutocratic stepped in; birth is no more the decisive factor for social rank, but income is. Today's plutocracy is mightier than yesterday's aristocracy: because nobody is above it but the state, which is its tool and helper's helper. When there was still true blood nobility, the system of aristocracy by birth was fairer than that of the moneyed aristocracy today: because then the ruling caste had a sense of responsibility, culture and tradition, whereas the class that rules today is barren of feelings of responsibility, culture or tradition.
