There were moments when I laughed, moments where I gasped in surprise, and moments where I knew I could not read fast enough because I had to know what was going to happen next... My only complaint? That it ended and now I need to wait. I must know what happens next. I must!!!!' Series Tracker 'Are you ready for a grip the edge of your seat-repeating mantra of OMG as you turn the pages eagerly?' Looking for something with intensity but also something that leaves you begging for more??? Looking for a new fav??? YES. This book is all of what you need and so much more! 'Go Into This One Knowing, Best. Book. Ever.' Crossroad Reviews 'This was incredible!... such a slow burn romance but the build-up had my heart beating out of my chest, the angst and suspense was killing me... This book was perfectly paced and the lack of info-dumping, love triangles and insta-love made for a perfect start to a new series. Switching from POV's from England and Paris and following the characters as they go from across countries was a great concept. With the addition of magic, action and adventure this book could really do no wrong in my eyes. There isn't a cliffhanger ending just the promise of lots more to come in the next installment which I'm now anxiously awaiting. I highly recommend this to fellow fantasy lovers who are looking for a brand new world to immerse themselves in, with great characters, a promising romance and a thrilling journey ahead.' Literary-ly Obsessed 'I love this book! It was really great! I've always loved books that include Alchemy as its major fantasy core. I just think that it's such a fascinating 'science!' ... I read the first chapter, and I was completely swept into this amazing world! ... can't wait until the second book comes out, and to continue exploring this amazing story! Just Another Bookish Blog 'thrilling and exciting all at the same time... an excellent paranormal fantasy... such amazing story telling' Books at Dawn

These products of "The Neptune Project" will be able to build a better future under the sea, safe from the barren country's famine, wars, and harsh laws. But there are some very big problems: no one asked Nere if she wanted to be a science experiment, the other Neptune kids aren't exactly the friendliest bunch, and in order to reach the safe haven of the Neptune colony, Nere and her fellow mutants must swim through hundreds of miles of dangerous waters, relying only on their wits, dolphins, and each other to evade terrifying undersea creatures and a government that will stop at nothing to capture the Neptune kids ... dead or alive. Fierce battles and daring escapes abound as Nere and her friends race to safety in this action-packed aquatic adventure.
