Famously adapted into the iconic film starring Michael Caine, Get Carter—originally published as Jack’s Return Home—ranks among the most canonical of crime novels. With a special Foreword by Mike Hodges, director of Get Carter It’s a rainy night in the mill town of Scunthorpe when a London fixer named Jack Carter steps off a northbound train. He’s left the neon lights and mod lifestyle of Soho behind to come north to his hometown for a funeral—his brother Frank’s. Frank was very drunk when he drove his car off a cliff and that doesn’t sit well with Jack. Mild-mannered Frank never touched the stuff. Jack and Frank didn’t exactly like one another. They hadn’t spoken in years and Jack is far from the sentimental type. So it takes more than a few people by surprise when Jack starts plying his trade in order to get to the bottom of his brother’s death. Then again, Frank’s last name was Carter, and that’s Jack’s name too. Sometimes that’s enough. Set in the late 1960s amidst the smokestacks and hardcases of the industrial north of England, Get Carter redefined British crime fiction and cinema alike. Along with the other two novels in the Jack Carter Trilogy, it is one of the most important crime novels of all time. From the Trade Paperback edition.

This book provides a comprehensive and up-to-date listing of the sources of immunochemicals for use in laboratory-based specialties such as Histopathology. Much more than just a catalogue of these chemicals, it includes specific technical details on the application and specificities of antisera, common pitfalls in use and how to avoid them, an aspect not covered in other similar texts.

This report is one of five volumes providing detailed information on the QA Tools, RAND’s comprehensive, clinically based system for assessing quality of care for children and adults. The QA Tools indicators encompass screening, diagnosis, treatment, and follow-up in 46 clinical areas and cover a variety of modes of providing care, including history, physical examination, laboratory study, medication, and other interventions and contacts.Development of each indicator was based on the ratings of a panel of experts in the relevant fields and on a focused review of the scientific literature, which is clearly documented for each clinical condition. This volume focuses on indicators for care of women. Each chapter summarizes the results of the literature review for a particular condition, provides RAND staff’s recommended indicators based on that review, and lists the cited studies. In addition, this work details the process by which the expert panevaluated the indicators and the final disposition of each indicator. Clinical conditions covered in this volume are: Acne, alcohol dependence, allergic rhinitis, asthma, breast mass, cesarean delivery, cigarette use counseling, depression, diabetes mellitus, family planning/contraception, headache, hypertension, acute low back pain, prenatal care, preterm labor-cortisosteroids for fetal maturation, preventive care, upper respiratoryinfections, urinary tract infection, vaginitis and sexually transmitted diseases. Other RAND Health titles on the QA Tools system focus on indicators for general medicine, oncology and HIV, cardiopulmonary conditions, and care of children and adolescents.

Fifty years ago medicine was straightforward. Doctors had limited therapeutic options and patients did as they were told. Today, an array of medial interventions is putting increasing pressure on limited resources, patients are questioning everything and doctors are uncertain of their role. Health economists hoped to offer important insights to aid decision making, but their technical frameworks bore little resemblance to the practical requirements of end users. Now, this book presents the concepts and insights that health economics has to offer in a way that is accessible to every healthcare decision maker. Getting Health Economics into Practice is for all those who are involved in the planning, commissioning and delivery of healthcare. It illuminates the practical value that the concepts and principles of health economics can offer decision makers at all levels. Comprehensive and extensive, it is the first such book to be edited by a clinician rather than a health economist, with contributions from an expert panel of specialists. This approach ensures it is accessible and useful in the everyday work of health professionals. It is relevant for all healthcare sectors, in particular for Primary Care Trusts, and is essential reading for managers, researchers, and especially practitioners.

This report is one of five volumes providing detailed information on the QA Tools, RAND’s comprehensive, clinically based system for assessing quality of care for children and adults. The QA Tools indicators encompass screening, diagnosis, treatment, and follow-up in 46 clinical areas and cover a variety of modes of providing care, including history, physical examination, laboratory study, medication, and other interventions and contacts. Development of each indicator was based on the ratings of a panel of experts in the relevant fields and on a focused review of the scientific literature, which is clearly documented for each clinical condition. This volume focuses on indicators for care of oncologic conditions and HIV. Each chapter summarizes the results of the literature review for a particular condition, provides RAND staff’s recommended indicators based on that review, and notes the level of scientific evidence supporting each indicator along with the relevant citations. In addition, this work details the process by which the expert panel evaluated the indicators and the final disposition of each indicator. Clinical conditions covered in this volume are: Breast cancer, cervical cancer, colorectal cancer, HIV, lung cancer, prostate cancer, skin cancer, cancer pain and palliation. Other RAND Health titles on the QA Tools system focus on indicators for care of children and adolescents, general medical conditions, cardiopulmonary conditions, and women.

Have you ever wanted to see a UFO? It's simple. This book will get you on the ground fast, with everything you need to know to help you see a UFO in six outings. There are three ingredients for contact: 1. Connection to One Mind Consciousness. 2. A Sincere Heart. 3. Clear Intent. Any more questions? The answers are all here!... how and where to make contact; what to bring and what equipment to use; what you will experience; how to document footage of encounters, and how to discern between what's "explainable" and what's "undeniable," and much more. Also included in this book are meditations that you can read in the field that help to create the right atmosphere for contact. The meditations come from experienced people all over the world. Dr. Greer's Vision of a New World will help you access feelings of universal peace and a sense of wonder for the positive changes to come to planet Earth. Kosta Makreas' Global CE-5 Initiative Meditation will cultivate coherence with people in your contact group and with other seekers the world over, fuelling your passion for this mission of peace and harmony. Or, read James Gilliland's Healing Negative Influences to clear your energy, shed negativity, and become more receptive to both external and intuitive contact. This book is a complete resource: History of the UFO seekers movement Tips and techniques How to pick a location How to navigate the night sky Imperative information about laser pointers Equipment and app recommendations What communication is like How to objectively discern sightings Where you can find a UFO contact retreat Links to social networks like "ET Let's Talk" Troubleshooting Overcoming fears Extensive glossary The authors attest that if you follow the easy instructions in this handbook, you will have a sighting within six outings. You already have everything you need to make contact. This book will help you get there faster.

'Every day I try to make each dish as good as it can be: my personal best ever. I like getting the balance of taste and texture just right, using familiar ingredients and creating big, intense flavours. Now, I hope you'll use my recipes to make some best ever dishes of your own.' Tom Kerridge As the most down-to-earth but high-flying chef on the food scene, Tom Kerridge has become known for his big flavours and beautifully crafted yet accessible food. And with more than 100 of his favourite recipes, Best Ever Dishes brings this spectacular cooking to the home kitchen. Tom starts with classics we all love such as tomato soup, chicken Kiev and rice pudding (plus a few new ideas of his own), then refines and elevates them to the best version that he has ever tasted. Give the Kerridge twist to a simple lasagne, and you'll discover that every mouthful is a taste explosion. Put a special spin on a chocolate tart, and you'll transform it into an exceptional, melt-in-the-mouth pud of the gods. With stunning photography by Cristian Barnett, this book really will change the way you cook. Get ready for Tom's new book, Lose Weight & Get Fit – coming this December.

This book gives a comprehensive overview of surgery that results in creating an ileoanal pouch or continent ileostomy. It deals with the entire journey of pouch surgery starting from patient selection and counselling to technical tips and tricks and ending in managing pouch function and failure. Containing a patient experience section this volume helps clinicians better understand what a patient expects from the ileoanal pouch. This is a very specialised topic but one that is covered very poorly and this book has the potential to consolidate all that is known about the topic to provide a comprehensive overview on the surgery and its consequences.

Author Vizard covers blending the bowls, basic porting procedures, as well as pocket porting, porting the intake runners, and many advanced procedures. Advanced procedures include unshrouding valves and developing the ideal port area and angle.

The genus Inga is a large group of forest trees restricted to South America. This monograph describes and maps 258 species. Of these 253 are illustrated, and information is presented on distribution, ecology, field characteristics and species relationships. Additional chapters cover morphology, wood and bark anatomy, cytology, non-protein amino acid chemistry, flavonoid chemistry, variation, relationships and distribution, and uses. There is a full list of exsiccatae and

indexes to scientific and vernacular names.
