Entity-relationship (E-R) diagrams are time-tested models for database development well-known for their usefulness in mapping out clear database designs. Also commonly known is how difficult it is to master them. With this comprehensive guide, database designers and developers can quickly learn all the ins and outs of E-R diagramming to become expe

Audience as Subject is the catalogue to a two-part exhibition that considers the audience broadly as a living organism of participating viewers of live events. The two parts, "Part 1: Medium" and "Part 2: Extra Large" examine audiences at gatherings of corresponding sizes. Participating artists include Andreas Gursky, Ryan McGinley, Paul Pfeiffer and Melanie Smith.

Finding love will only happen when one discovers his or her true purpose for living. Bishop Walker's "Date with Destiny" will help readers fit their plans into the deeper and richer plan God has.

Selected from over 3,500 sermons, this volume features Spurgeon's preaching on women--be they pious, notorious, or infamous--who populate the Old and New Testaments. Included are Sarah, Hagar, Rebekah, Rahab, Delilah, Ruth, Hannah, the Queen of Sheba, Esther, Mary (the mother of Jesus), Mary of Bethany, Mary and Martha, the Samaritan woman, Lydia, and more. Spurgeon began selling his sermons early in his career, and they have been published in many formats over the last century and a half. Retypeset and redesigned, this new collection from Hendrickson features a modern, easy-to-read format.

In western philosophy today, the three leading approaches to normative ethics are those of Kantian ethics, virtue ethics and utilitarianism. In recent years the debate between Kantian ethicists and virtue ethicists has assumed an especially prominent position. The twelve newly commissioned essays in this volume, by leading scholars in both traditions, explore key aspects of each approach as related to the debate, and identify new common ground but also real and lasting differences between these approaches. The volume provides a rich overview of the continuing debate between two powerful forms of enquiry, and will be valuable for a wide range of students and scholars working in these fields.

For the thru-hiker, weekend backpacker, day hiker, mountain bicyclist, and horse

rider. Includes mile points, elevations, and maps for each segment. Features completely updated maps and data for the 80-mile Collegiate West trail addition, as well as bicycle detours around wilderness areas.

Papers from a recent conference highlight the need for emission reduction strategies and technologies in transport and off-highway mobile machinery. They address issues faced by vehicle machine and engine manufacturers regarding future emission legislation, and discuss technical strategy together with the likely direction that research will take in response to these legislative demands. Focus is on reciprocating engines and their application challenges, with additional coverage of measurement techniques, installation dilemmas, and legislation trends. Specific subjects include hybrid power train systems, an injection natural gas engine for light-duty applications, and evaporative emission systems. Of interest to those working in industries involving combustion systems, fuel and air systems, engine design, and vehicle and machine systems. Lacks a subject index. c. Book News Inc.
