Beginning with a discussion on frameworks of writing history, the volume sheds light on the origins and growth of civilizations, empires, and religions. It covers the geographical, ecological, and linguistic backgrounds, and looks at specific cultures of the Neolithic, Chalcolithic, and Vedic periods, as well as the Harappan civilization. The author discussed the rise of Jainism and Buddhism, Magadha, and the beginning of territorial states. The period of Mauryas, Central Asian countries, Satavahanas, Guptas, and Harshvardhana are also analysed. He highlights important phenomena such as the varna system, urbanization, commerce and trade, developments in science and philosophy, and cultural legacy. He also examines the process of transition from ancient to medieval India and addresses topical issues such as the origin of the Aryan culture. This engaging and lucid text, by one of the best-known scholars of ancient India, will be indispensable for students and teachers of ancient Indian history. This book is the Hindi translation of the English edition.

This book is a substantially modified and enlarged version of the author’s “Ancient India: An Introductory Outline” (Delhi, 1977) and surveys the major developments in India’s social, economic and cultural history up to the end of the ancient period and the beginning of the early middle ages and explains the rise and growth of states with reference to their material basis. Special attention has been paid to the elements of change and continuity in society, economy and culture, and to the changing forms of exploitation and consequent social tensions as well as to the role of religion and superstition in society. The book demolishes the popular historiographical stereotypes created by the Hindu-chauvinist communal writings. It also gives the lie to the view that the Indian society has been stagnant and changeless -- a view which was propagated by Western scholars in the heyday of British imperialism and continues to be peddled ingeniously in our own times. The assassination of Mahatma Gandhi ... and the demolition of the Baburi Masjid are two ... unforgettable milestones in the unfolding of the backward-looking Hindu revivalist and fascist politics of contemporary India. Since both Harappa and Mohenjodaro are situated now in Pakistan, the Hindu revivalists are busy locating the

epicentre of the Harappan culture in the elusive Saraswati valley.

The object of this volume is to provide within a moderate compass a compendious account of the history, institutions, and culture of ancient India from the dim ages of antiquity to the establishment of Moslem rule. It has not been planned to meet the needs of any particular class of readers. Its primary purpose is to serve alike students, scholars, and all others, interested in the study of ancient Indian history, as a book of ready use and reference. The pages which follow every attempt has been made to avoid presenting a mass of the dry bones of historical fact or over-burdening the account with intricate discussions on knotty problems of history, on the one hand, and giving a mere general and readable survey of India's long and fascinating past, on the other. I have endeavoured to tap and utilise properly the available sources of information, literary, epigraphic, and numismatic, and also to embody and set forth in a consistent manner the results of up-to-date researches on different topics and epochs. All the materials have been patiently sifted and critically examined with the sole desire to arrive at historical truth and scientific accuracy; and the unfortunate tendency, manifest in some modern publications, to extol or decry without warrant any of the manifold aspects of India's panoramic story, has been scrupulously eschewed. This book gives an authoritative, up-to-date, and compendious account of the history, institutions and culture of India from the earliest times to the advent of the Moslem period. It is based on all available materials - literary, epigraphic, and numismatic - and is written in a most elegant, sober, and lucid style. The author brings to bear upon his task not only profound scholarship and critical acumen but also scrupulous regard for historical truth, the accuracy of facts and impartiality of judgement. The merit of the book has been enhanced by an exhaustive Bibliography and a comprehensive Index. Students, scholars and the general reader alike will find the book highly interesting, useful and valuable for study and references.

This textbook narrates the ancient Indian history from the genesis of civilisations to the early middle ages. It examines the sources, chronology of civilisations and authoritatively details the facts, feats, triumphs and religious crusades of the period. It unveils the rich cultural, religious and social diversity that is uniquely and peculiarly Indian.

This book presents a complete and accessible description of the history of early India. It starts by discussing the origins and growth of civilizations, empires, and religions. It also deals with the geographical, ecological, and linguistic backgrounds, and looks at specific cultures of the Neolithic, Chalcolithic, and Vedic periods, as well as at the Harappan civilization. In addition, the rise of Jainism and Buddhism, Magadha and the beginning of territorial states, and the period of Mauryas, Central Asian countries, Satvahanas, Guptas, and Harshavardhana are also analysed. Next, it stresses varna system, urbanization, commerce and trade, developments in science and philosophy, and cultural legacy. Finally, the process of transition from ancient to medieval India and the origin of the Aryan culture has also been examined.

This book is based on the latest researchers and it contains all about the political and cultural history of ancient India. It is useful for both Competitive and University level examinations.
