Nach vieljä hriger Vorbereitung und Sehnsucht geht es fü r den Autor 2012 endlich in das Land der Tr ä ume. Von Mumbai aus reist er zun ä chst mit dem Zug zu den Orten Yoganandas: Puri, Kolkata, Ranchi, Varanasi. In Varanasi geht er sechs Wochen lang in die Tiefe und trifft zuf ä llig auf den Urenkel Lahiri Mahasayas. Bei diesem hat er die M ö glichkeit, sich in den Kriya Yoga einweihen zu lassen und an einem Retreat an ä sslich des Kumbh Melas in Allahabad teilzunehmen. Am 10. Februar 2013 erlebt er, wie Zigmillionen von Pilgern an einem Ort rituell im Ganges untertauchen. Nach zwei weiteren Wochen auf dem Kumbh Mela geht es nun immer mit Fahrrad und Bus weiter nach Lucknow, zu einem Vipassana Retreat, nach Delhi, Amritsar, Jammu, Srinagar, Leh, Dharamsala, Shimla, Rishikesh, Jaipur, Udaipur, Ahmedabad und von Mumbai aus nach sechsmonatiger Reise wieder zur ü ck nach Deutschland.

Gerard Goggin has produced an incisive and penetrating overview of the world according to mobiles. Covering sight, sound and status, plus a host of other issues, he provides a provocative analysis of how mobile communication gadgets come to play such a prominent role in our lives. Any scholar of New Media will want to read this book – James Katz, Department of Communication, Rutgers University, USA
With billions of users worldwide, the cell phone is not only a successful communications technology; it is also key to the future of media. Global Mobile Media offers an overview of the complex topic of mobile media, looking at the emerging industry structures, new media economies, mobile media cultures and network politics of cell phones as they move centre-stage in media industries. The development, adoption and significance of cell phones for society and culture have been registered in a growing body of work. Where existing books have focused on communication, and on the social and cultural aspects of mobile media, Global Mobile Media looks at the media dimensions. Goggin provides a pioneering yet measured evaluation of how cell phone corporations, media interests, users and policy makers are together shaping a new media dispensation. Global Mobile Media successfully places new mobile media historically, socially and culturally in a wider field of portable media technologies through extensive case studies, including: the rise of smartphones, with a detailed discussion of the Apple iPhone and how it has catalysed a new phase in convergent media, audiences and innovation the new agenda in cultural politics and media policy, featuring topics such as iPhone apps and control, mobile commons, and open mobile networks a succinct map of the political economy of mobile media, identifying key players, patterns of ownership and control, institutions, and issues a critical account of cell phones’ involvement in and contribution to much-discussed new forms of production and consumption, such as user-generated content, p2p networks, open and free source software networks an anatomy of how cell phones relate to other online media, particularly the Internet and wireless technologies. Global Mobile Media is an engaging, accessible text which will be of immense interest to upper-level undergraduates, postgraduates and researchers in Communication Studies, Cultural Studies and Media Studies, as well as those taking New Media courses.

A volume in the Remote Sensing Handbook series, Remotely Sensed Data Characterization, Classification, and Accuracies documents the scientific and methodological advances that have taken place during the last 50 years.
