Start Making! is a program developed by the Clubhouse Network to engage young people all over the world in Maker-inspired activities. With this guide, you will discover how to plan and coordinate Start Making! projects in your home, school, library, community center, after-school club, or makerspace. You'll learn strategies for engaging young people in creative thinking, developing individual and team projects, and sharing and reflecting on their creations. Each session includes a list of the supplies you'll need, step-by-step instructions for completing the projects, and prompts for stimulating discussion, curiosity, and confidence. These fun do-it-yourself (and do-it-together) projects teach fundamental STEAM concepts -- science, technology, engineering, art, and math -- while introducing young people to the basics of circuitry, design, coding, crafting, and construction. They'll make paper cards and creations that light up, play music using a MaKey MaKey keyboard and Scratch programming, join together to make paintings with light, design and construct 3D sculptures, build a vibrating art-bot that makes drawings, and sew fabric creations with wearable circuits. Dip into the activities once a week, run them as a week-long summer activity, or go through the guide in any way that works for you. By offering your own Start Making! program, you can inspire young people in your community to develop creative ideas, learn new skills, and share their creations. The Clubhouse Network is a global network of community-based centers led by Boston's Museum of Science in collaboration with the MIT Media Lab.

??Buy the Paperback Version of this Book and get the Kindle Book version for FREE ?? A step by step guide on how you can create and start your very own personal website. This is ideal especially for anyone who wants to have an online presence such as anybody who wants to start a blog, do freelance work, build a brand and also become a part of social media. This book is a guide to an effective online presence for your business and it is an absolute MUST for everyone who needs a website to help you do better, smarter marketing.

Get it right—from the start! "Entrepreneurship is like a roller coaster ride, exhilarating yet terrifying . . . Allow Ingrid to guide you" (Adam Franklin, bestselling author of Web Marketing That Works). Often, people leap into starting a business to pursue their passion without fully realizing what they've gotten themselves into. They may love what they do—but the financial and administrative side of the business ends up being more than they bargained for. So You Want to Start a Business takes you through the seven essential elements required to create a thriving business. With examples, exercises, and invaluable guidance, Ingrid Thompson provides a practical guide to unleashing one's inner entrepreneur. With over twenty years' experience helping people create successful businesses, Ingrid knows exactly how to help people decide what kind of business to start—and start out on the right foot.

If you have given some thought to the idea of making wine at home but just haven't quite gotten around to it yet, there is no reason to delay any longer. Thousands of people around the world happily enjoy the benefits and rewards of making their own wine. While certain equipment is required, you do not need to make a prohibitive investment or even have a large space in order to enjoy a hobby that can be quite rewarding. In reality, making wine at home is much easier than you might at first think. The entire process really only involves combining concentrate or fruit with a few simple other ingredients, placing it into the container and then letting it go to work. The resulting process is actually quite natural and will not require a lot of interaction from you. In fact, it could be said that all you really need to do is make sure that the proper proportions of ingredients are combined and then provided with an environment that is suitable and stable. Let's get started!

The first step in regaining control of your finances is to make a budget. A budget not only shows you how to spend, it also sheds light on money mistakes that you may have been making. Your budget will change as your finances change and you will learn how to save for retirement and grow your savings by learning to live by a financial budget suited for your needs. It is not difficult to make a budget and live by it. You just must first have the mindset to do it. This Ebook will show you how.

Get out of your own way and bring your ideas to life! Exactly Where to Start is a playbook for everyone with a great idea, everyone with a goal in mind, and everyone with a specific destination but no journey. We've been told all our lives that "good things come to those who wait"—but that's a myth. Good things come to those who do. Too often, we get stuck in the "getting ready" stage: research, analysis, brainstorming, and more research; we feel like we need to know everything there is to know about what we want to do before we ever take the first steps. Meanwhile, the people who actually go out and do the thing are taking risks, learning lessons, and making strides toward their goals every single day. Isn't it time you joined them? This book coaches you through the journey with precise, actionable steps that help you take that all-important first leap and keep the momentum going. Discard the distractions, break through the overwhelm, and get going for real with this real-world blueprint for turning your vision into reality. Snap yourself out of "analysis paralysis" Stop thinking you need to know everything before you even begin Make those big decisions and focus in on your goals Chart your journey's path, and get up and get started today Many of us have fallen into a trap: we no longer believe that "anything is possible", yet we are surrounded by proof that everything is possible! But we are distracted, harried, overwhelmed, and maybe a little intimidated. Our dreams remain forever in limbo, and we may go to our graves before we venture beyond the "planning stage". Don't let that happen—don't you deserve to realize your goals? Exactly Where to Start gives you the kick in the pants and the practical plan you need to stand up, step up, and make it happen.

Start Small, Stay Small is a step-by-step guide to launching a self-funded startup. If you're a desktop, mobile or web developer, this book is your blueprint to getting your startup off the ground with no outside investment. This book intentionally avoids topics restricted to venture-backed startups such as: honing your investment pitch, securing funding, and figuring out how to use the piles of cash investors keep placing in your lap. This book assumes: * You don't have \$6M of investor funds sitting in your bank account * You're not going to relocate to the handful of startup hubs in the world * You're not going to work 70 hour weeks for low pay with the hope of someday making millions from stock options There's nothing wrong with pursuing venture funding and attempting to grow fast like Amazon, Google, Twitter, and Facebook. It just so happened that most people are not in a place to do this. Start Small, Stay Small also focuses on the single most important element of a startup that most developers avoid: marketing. There are many great resources for learning how to write code, organize source control, or connect to a database. This book does not cover the technical aspects developers already know or can learn elsewhere. It focuses on finding your idea, testing it before you build, and getting it into the hands of your customers.

A "guide to podcasting featuring step-by-step advice on how to find a unique topic, tell the best

stories, and engage the most listeners, as well as the secrets that will take your pod to the next level"--Publisher marketing.
