The Geographer's Library by Jon Fasman (9780143096623)

Jon Fasman has taken a big chance with The Geographer's Library, his debut novel, setting out a complicated scenario in which a collection of priceless objects is stolen from the titular library and, eventually, scattered and re-collected a thousand years later—with very bad results for the final collector. The geographer is a real person, Al-Idrisi, a Spanish-Muslim philosopher, cartographer, linguist, and scholar who served in the court of King Roger of Sicily in Palermo in the year 1154.

"A brainy noir . . . [a] winningly cryptic tale . . . a cabinet of wonders written by a novelist whose surname and sensibility fit comfortably on the shelf between Umberto Eco and John Fowles." —Los Angeles Times "One of the year ' s most literate and absorbing entertainments." —Kirkus Reviews Jon Fasman ' s dizzyingly plotted intellectual thriller suggests a marriage between Dan Brown and Donna Tartt. When reporter Paul Tomm is assigned to investigate the mysterious death of a reclusive academic, he finds himself pursuing leads that date back to the twelfth century and the theft of alchemical instruments from the geographer of the Sicilian court. Now someone is trying to retrieve them. Interpersed with the present action are the stories of the men and women who came to possess those charmed—and sometimes cursed—artifacts, which have powers that go well beyond the transmutation of lead into gold. Deftly combining history, magic, suspense, and romance—and as handsomely illustrated as an ancient incunabulum—The Geographer ' s Library is irresistible.

An investigation into the legal, political, and moral issues surrounding how the police and justice system use surveillance technology, asking the question: what are citizens of a free country willing to tolerate in the name of public safety? The police now have unparalleled power at their fingertips: surveillance technology. Seamless, persistent, even permanent surveillance is available - sometimes already deployed, sometimes waiting for the right excuse. Automatic license-plate readers allow police to amass a granular record of where people go, when, and for how long. Drones give police eyes—and possibly weapons—in the skies. Facial recognition poses perhaps the most dire and lasting threat than any other technology. Algorithms purport to predict where and when crime will occur, and how big a risk a suspect has of re-offending. Tools can crack a device's encryption keys, tending all privacy protections useless. Embedding himself with both police and community activists in locales around the country - ranging from Newark, NJ and Baltimore, MD, to Los Angeles and Oakland, CA - Jon Fasman looks at how these technologies help police do their jobs, and what their use means for our privacy rights and civil liberties. We want safe streets and fewer criminals, but we also want to protect our privacy rights and civil liberties. Fasman provides a framing for thinking through these issues, exploring questions like: should we expect to be tracked and filmed whenever we leave our homes? Should the state have access to all of the data we generate? Should private companies? What might happen if all of these technologies are combined and put in the hands of a government with scant regard for its citizens' civil liberties? Through on-the-ground reporting and vivid story-telling, Fasman explores the moral, legal, and political questions these surveillance tools and techniques pose.

Fleeing America and his gambling debts, Jim Vilatzer uses the Russian language skills he learned from his migr grandparents to land a job in Moscow interviewing Gulag survivors, work that brings him into the rich lives of his new neighbors and catches the suspicious attentions of Russia's Interior Ministry and the CIA. 40,000 first printing.

A gripping novel about the dangers and draws of contemporary Russia—from the author of The Geographer's Library With The Geographer's Library, Jon Fasman made an "inventive and spirited" debut (The New Yorker) that landed him on The New York Times bestseller list. Every bit as dazzling, The Unpossessed City takes readers into the Wild East that is Russia today. There we meet Jim Vilatzer—an American expat whose Russian language skills land him a job interviewing former inmates of the Gulag and ensnare him in a web of deceit involving the CIA, Russia's Interior Ministry, and Central Asian arms dealers selling the most dangerous technologies to the highest bidder. From its brooding portrayal of Moscow to its riveting pace, The Unpossessed City is an atmospheric triumph in the tradition of Donna Leon's novels of Venice.

' Walker is my name and I am the same. Ridley Walker. Walking my riddels where ever theyve took me and walking them now on this paper the same. There aint that many sir prizes in life if you take noats of every thing. Every time will have its happenings out and every place the same. Thats why I finely come to writing all this down. Thinking on what the idear of us myt be. Thinking on that thing whats in us lomn and loan and oansome. ' Composed in an English which has never been spoken and faced with a storytelling tradition that predates the written word, RIDDLEY WALKER is the world waiting for us at the bitter end of the nuclear road. It is desolate, dangerous and harrowing, and a modern masterpiece.

An audacious and terrifying new thriller from the author of the international bestseller The Genesis Secret. When David Martinez receives an ancient map from his dying grandfather, he is led into the heart of the Basque mountains, where a genetic curse lies buried- and a frightening secret about the Western world is hidden. Meanwhile, London journalist Simon Quinn is investigating two violent murders. Both victims had once been interned in a top-secret Nazi camp-and both came from the Basque region. With The Marks of Cain, Tom Knox (The Lost Goddess) delivers on the promise of his astonishing debut novel, crafting a terrifying and even more ambitious thriller that delves into the shocking truth of what drives human beings to violence, genocide, and war.

What terrible secret has driven the world ' s foremost historian of the Knights Templar to kill himself? Journalist Adam Blackwood has just been handed the story of a lifetime: something is hidden in the famous Knights Templar chapel of Roslyn that could unlock the greatest mystery of the medieval Templars—until the one man who could decipher the final clue commits a grotesque suicide. Adam sets out to learn why. In Peru, anthropologist Jess Silverton is researching the remnants of the Moche, a bloodthirsty, sexually voracious, lost Stone Age civilization. Amid the toxic turmoil of local gangs and corrupt politicians, her dogged pursuit for answers will lead Jess to cross paths with Adam as they unearth the ancient secret that enthralled the conquistadors, horrified the Church, and is threatening to reemerge—with catastrophic consequences.

Winner of the 2016 Financial Times Emerging Voices Award, and longlisted for the 2016 Man Booker International Prize A wry, affecting tale set in a small town on the Indonesian coast, Man Tiger tells the story of two interlinked and tormented families and of Margio, a young man ordinary in all particulars except that he conceals within himself a supernatural female white tiger. The inequities and betrayals of family life coalesce around and torment this magical being. An explosive act of violence follows, and its mysterious cause is unraveled as events progress toward a heartbreaking revelation. Lyrical and bawdy, experimental and political, this extraordinary novel announces the arrival of a powerful new voice on the global literary stage.

A trillion dollar financial industry is revolutionizing the global economy. Governments and corporations across the Islamic world are increasingly turning to finance that complies with Shari ' a law in order to fund economic growth. Even in the West, Islamic finance is rapidly becoming an important alternative source of funding at a time when the conventional finance industry is reeling from the effects of the financial crisis. Á From its origins in the seventh century, Islamic finance has sought to develop core ethical principles that are based in the foundations of Islam and Shari ' a. By engaging critically with the complexities of international finance, it has evolved and adapted into a world emerging from the economic and moral aftermath of a global financial crisis. But with an increasing Western interest, is it able to remain true to the principles of its faith? Can it maintain its ideals of social justice? Or is Islamic finance guilty of the very dangers it seeks to avoid? Á In Heaven ' s Bankers, Harris Irfan, one of the world ' s leading Islamic finance bankers, gives unparalleled insight into the heart of this secretive industry. From his personal experience of working with leading bankers, scholars and lawyers, he debunks the myths of Islamic banking, analyzes its greatest deals and looks to the future of a system that has reappropriated the very nature of money itself.

Jack Howard is about to discover a secret. Perhaps the greatest secret ever kept. What if one of the Ancient World's greatest libraries was buried in volcanic ash and then re-discovered two thousand years later? What if what was found there was a document that could shatter the very foundations of the Western World? What if you were the one who discovered this secret? And were then forced to confront terrifying enemies determined to destroy you to ensure it goes no further? This is the story of one last Gospel, left behind in the age of the New Testament, in the greatest days of the Roman Empire, and of its extraordinary secret, one that has lain concealed for years. Follow Jack Howard as he discovers the secret and must prevent others from doing the same...
