early modern history in a European and global context. The term "early modern" has been familiar, especially in Anglophone scholarship, for four decades and is securely established in teaching, research, and scholarly publishing. More recently, however, the unity implied in the notion has fragmented, while the usefulness and even

knowledge, together with some suggestions as to how the field is developing. It aims both to interrogate the notion of "early modernity" itself and to survey early modern Europe as an established field of study. The overriding aim will be to establish that "early modern" is not simply a chronological label but possesses a substantive integrity. Volume
