A humorous and insightful look into what advice works, what doesn ' t, and what it means to transform yourself, by the co-hosts of the popular By the Book podcast. In each episode of their podcast By the Book, Jolenta Greenberg and Kristen Meinzer take a deep dive into a different self-help book, following its specific instructions, rules, and advice to the letter. From diet and productivity to decorating to social interactions, they try it all, record themselves along the way, then share what they ' ve learned with their devoted and growing audience of fans who tune in. In How to Be Fine, Jolenta and Kristen synthesize the lessons and insights they ' ve learned and share their experiences with everyone. How to Be Fine is a thoughtful look at the books and practices that have worked, real talk on those that didn ' t, and a list of philosophies they want to see explored in-depth. The topics they cover include: Getting off your device Engaging in positive self-talk Downsizing Admitting you ' re a liar Meditation Going outside Getting in touch with your emotions Seeing a therapist Before they began their podcast, Jolenta wanted to believe the promises of self-help books, while Kristen was very much the skeptic. They embraced their differences of opinion, hoping they ' d be good for laughs and downloads. But in the years since launching the By the Book, they ' ve come to realize their show is about much more than humor. In fact, reading and following each book ' s advice has actually changed and improved their lives. Thanks to the show, Kristen penned the Amish romance novel she ' d always joked about writing, traveled back to her past lives, and she broached some difficult conversations with her husband about their marriage. Jolenta finally memorized her husband ' s phone number, began tracking her finances, and fell in love with cutting clutter. Part memoir, part prescriptive handbook, this honest, funny, and heartfelt guide is like a warm soul-baring conversation with your closest and smartest friends.

A book that provides the lessons that I learned as a consultant to over 750 clients over the past 50 years

Barbara Jordan spoke for many Texas women when she told a reporter, "I get from the soil and spirit of Texas the feeling that I, as an individual, can accomplish whatever I want to, and that there are no limits, that you can just keep going, just keep soaring. I like that spirit." Indeed, the sense of limitless possibilities has inspired countless Texas women—sometimes in the face of daunting obstacles—to build lives rich in work, family, friends, faith, and community involvement. In this collection of interviews conducted by PJ Pierce, twenty-five Texas women ranging in age from 53 to 93 share the wisdom they've acquired through living unconventional lives. Responding to the question "What have you found that really matters about life?" they offer keen insights into motherhood, career challenges, being a minority, marriage and widowhood, anger, assertiveness, managing change, persevering, power, speaking out, fashioning success from failure, writing your own job description, loving a younger man, and recognizing opportunities disguised as disaster—to name only a few of their topics. In her introduction, Pierce describes how she came to write the book and how she chose her subjects to represent a cross-section of career paths and ethnic groups and all geographic areas of Texas. A topical index makes it easy to compare several women's views on a given subject.

What I ' ve Learned - An Encyclopedia of Perpetual Bullshit covers topics that affect us every single day, as seen through the eyes of Chris Heist. Just like you, he ' s a nobody that wants to be a somebody. So he set out to write this book; losing two jobs, an apartment, and a marriage along the way. In this book you ' ll learn how to properly reject etiquette, how to legally stare into your neighbor ' s windows, how to properly support suicide, how to make sense out of idiotic laws, how to insult people ' s mothers, how to piss off religious people, how to write a screenplay, how to use taboo words without getting your ass kicked, how to play drinking games, how to handle holidays, how to use the bible to avoid paying child support, how to spot a scumbag boss, how to disgust hotel staff, how to behave online, how to deal with addiction, how to properly be patriotic, how to skip high school, how to say impolite things in German, how to choose heroes, and how to enjoy what you have with the time you have to enjoy it. In his small circle of friends, he is both a legend and an asshole. But now, Christopher T. Heist can invade the lives of complete strangers as he shares his twisted perspective of everything he ' s been exposed to. And yes, nothing is sacred. As a self-proclaimed actor, activist, poet, porn star, comedian, screenwriter, atheist, author, body-builder, recovered addict, part-time alcoholic, part-time racist, leader, winner, loser, counselor, ex-soldier, runner, bicyclist, laborer, prisoner, freethinker, singer, rapper, boxer, criminal, pimp, victim, street fighter, dirty fighter, dealer, director, graduate, guardian, sucker puncher, lover, photographer, model, artist, father, inventor, slave to the system, and all around survivalist; you may find yourself nodding in agreement to some of the crazy shit he hammers out in this book.

50+ Years a Teacher!! Lessons Learned: A Memoir By: Dr. Millicent Crisp Rainey 50+ Years a Teacher!! Lessons Learned: A Memoir tells the wonderful story of stellar educator Dr. Millicent Crisp Rainey and her journey from a young child with wonderful teachers to a trailblazer for women in education. Rainey recounts her journey, her experiences—both positive and challenging—to illustrate the life lessons she ' s learned in her 50+ years as a teacher.

Make learning: painless, exciting, habitual, and self-motivating. Absorb info like a human sponge. We ' ve never been taught how to learn, and that ' s a shame. This book is the key to reversing all the misconceptions you have and making learning fun again. Scientifically-proven, step-by-step methods for effective learning. The Science of Accelerated Learning is not a textbook - it ' s a guidebook for your journeys in learning. It will show you the most effective methods, the pitfalls we must avoid, and the habits we must cultivate. This book is highly organized and addresses all phases of the learning process, from creating a positive environment, to the biological basis of memory, to learning theories, and more. It borrows from multiple scientific disciplines to present comprehensive techniques to simply learn more, faster. Master your approach and save countless hours. Peter Hollins has studied psychology and peak human performance for over a dozen years and is a bestselling author. He has worked with a multitude of individuals to unlock their potential and path towards success. His writing draws on his academic, coaching, and research experience. Smarter, faster, and better ways to achieve expertise. •The physical and psychological pre-conditions to effective learning. •How our memory works and how to make it work for you. •The learning techniques that work - with evidence. •How to never need to cram again. Tame distractions and procrastination through specialized habits. •Why Einstein loved to play violin while working. •The learning mistakes you are probably committing right now. •Steps to building true expertise. •How to teach effectively, and teach to learn. Outpace others, beat the competition, and get where you want to go in record time.

Presents a retrospective collection of fifty short stories accompanied by notes and introductory material on the author's work.

his slender book is a rare gift: a distilled compilation of the most profound insights that the ever-brilliant Richard Barrett has accumulated over decades of path-breaking work. If every individual and organisation used Richard's frameworks to guide their actions, our world would be a blessed place. Raj Sisodia, FW Olin Distinguished Professor of Global Business, Babson College, Co-founder & Chairman Emeritus, Conscious Capitalism Inc., USA. The best book on values I have ever read. Richard Barrett is one of the world's foremost experts on the subject; nevertheless he manages to inhabit the 'beginner's mind': He takes us back to the fundamental truths about the importance of values in our personal, organisational and societal lives. Ruth Steinholtz, Founder and Managing Partner of AreteWork LLP, UK.
